KIMBERLY YEE
TREASURER

October 28, 2019

The Honorable Douglas A. Ducey
Governor, State of Arizona
1700 W. Washington
Phoenix, AZ 85007

Dear Governor Ducey:

It is a pleasure to submit the Arizona State Treasurer's Annual Audited Financial Statements for the fiscal year ended June 30, 2019.

During the past fiscal year we have continued to earn a profit for both state and local taxpayers. In Fiscal Year 2019, we distributed investment earnings of \$566.7 million, an increase of 26% from the previous fiscal year.

Highlights of the Treasurer's Office for the fiscal year:

- Fair value of combined investments totaled \$17.1 billion versus \$15.3 billion in FY 2018.
- Fair value of all Endowment Funds totaled \$6.0 billion, a 2.4% increase from the prior year; investment earnings of \$345.4 million distributed to beneficiaries, an increase of 9.0% from FY 2018.
- Fair value of State Agency and Local Government pools totaled \$11.1 billion, a 17.6% increase from the prior year with \$221.3 million distributed to pool participants, a 67.1% increase over FY 2018.
- The Endowment Fund had a total return of 5.86% for the fiscal year compared to its 3-year return of 8.71%, 10-year return of 9.55%, and inception-to-date return of 6.49%.
- State shared revenue distributions totaled \$13.5 billion.

It is an honor and a privilege to serve the citizens of Arizona as State Treasurer.

Sincerely,

Kimberly Yee
Arizona State Treasurer

Independent auditors' report

Members of the Arizona State Legislature

The Honorable Kimberly Yee
Arizona State Treasurer

Report on the financial statements

We have audited the accompanying financial statements of the fiduciary funds of the Office of the Arizona State Treasurer as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the Office of the Arizona State Treasurer's financial statements as listed in the table of contents.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the Office of the Arizona State Treasurer's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Office of the Arizona State Treasurer's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the fiduciary funds of the Office of the Arizona State Treasurer as of June 30, 2019, and the results of operations of its investment trust funds and the changes in financial position of its investment trust funds for the year then ended in accordance with U.S. generally accepted accounting principles.

Emphasis of matter

As described in Note 1 to the financial statements, the Office of the Arizona State Treasurer's financial statements are intended to present the financial position, results of operations, and changes in financial position of only that portion of the fiduciary activities of the State of Arizona that is attributable to the Office of the Arizona State Treasurer's transactions. They do not purport to, and do not, present fairly the financial position of the State of Arizona as of June 30, 2019, and the changes in financial position of the State of Arizona for the year then ended in conformity with U.S. generally accepted accounting principles. Our opinion is not modified with respect to this matter.

Other matters

Supplementary and other information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Office of the Arizona State Treasurer's financial statements. The letter from the State Treasurer, the external investment pools and individual investment account financial statements, and summary of cash on deposit with the treasurer and accompanying note listed in the table of contents are presented for purposes of additional analysis and are not required parts of the financial statements.

The external investment pools and individual investment account financial statements are management's responsibility and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with U.S. generally accepted auditing standards. In our opinion, the external investment pools and individual investment account financial statements are fairly stated, in all material respects, in relation to the financial statements as a whole.

The letter from the State Treasurer and the summary of cash on deposit with treasurer and accompanying note have not been subjected to the auditing procedures applied in the audit of the financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other reporting required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated October 28, 2019, on our consideration of the Office of the Arizona State Treasurer's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Office of the Arizona State Treasurer's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Office of the Arizona State Treasurer's internal control over financial reporting and compliance.

Auditor General

**STATE OF ARIZONA
OFFICE OF THE TREASURER
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019**

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the State of Arizona, Office of the Treasurer (Treasurer) conform to accounting principles applicable to governmental units adopted by the Governmental Accounting Standards Board (GASB).

Reporting Entity - The Investment Trust Funds and Agency Funds account for the assets held by the Treasurer as custodian or fiscal agent for the various fund types of the State of Arizona as well as political subdivisions and public entities investing in the Local Government Investment Pool (LGIP), Local Government Investment Pool – FF&C (LGIP-GOV), Local Government Investment Pool – Medium Term (LGIP-MT), Local Government Investment Pool – Medium Term FF&C (LGIP-MT GOV), Local Government Investment Lehman Brothers, and the Central Arizona Water Conservation District, an Individual Investment Account.

Although reported as Investment Trust Funds and Agency Funds by the Treasurer, these funds become a part of the State of Arizona’s governmental, proprietary, and fiduciary fund categories at the combined statewide level.

Fund Accounting - The Treasurer’s accounts are maintained in accordance with the principles of fund accounting to ensure that limitations and restrictions on the Treasurer’s available resources are observed. The principles of fund accounting require that resources be classified for accounting and reporting purposes into funds in accordance with the activities or objectives specified for those resources. Accordingly, the above-described financial transactions have been recorded and reported in the Investment Trust Funds and Agency Funds. A description of the fund types follows.

The *Investment Trust Funds* account for pooled and non-pooled assets held and invested by the Treasurer on behalf of state agencies and other governmental entities using the economic resources measurement focus.

The *Agency Funds* are custodial in nature and do not present results of operations or have a measurement focus. These funds are used to account for assets that the Treasurer holds for state departments, agencies, commissions, boards, and other governments in an agency capacity.

Basis of Accounting - The financial statements of the Investment Trust Funds and Agency Funds are presented on the accrual basis of accounting. Revenues or receivables are recognized when they are earned, and expenses or liabilities are recognized when they are incurred. The purchase and sale of units consists of transfers of units between different investment pools in addition to external purchases and sales transactions.

Net Position Value - The Treasurer’s Investment Policy requires the following. For the LGIP and the LGIP-GOV pools, the portfolio manager shall strive to maintain a Net Position Value of \$1.00 for the pool. For the LGIP-MT and LGIP-MT GOV pools, the portfolio manager does not strive to maintain a Net Position Value of \$1.00 for the pool because securities purchased have longer term maturity dates and are thus more susceptible to changing market conditions. For the Local Government Investment Lehman Brothers, the securities held for this pool are in chapter 11 bankruptcy. However, there is still a market for these securities and the Net Position Value reflects the change in value from the previous fiscal year-end with the current fiscal year-end.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

Allocation Method for Endowment Land Earnings Funds 101-114 – The Arizona Constitution, Article X, Section 7, requires the Treasurer to invest and distribute Endowment Land Trust monies derived from the sale of state lands for certain state beneficiaries. Accordingly, the Treasurer maintains the following Endowment Land Trust pools: The State of AZ Pool 201 (S&P 500), the State of AZ Pool 203 (S&P 400), the State of AZ Pool 204 (S&P 600), the State of AZ Pool 205 (Fixed Income) and the State of AZ Pool 123 (ST Fixed Income). The state beneficiaries of the Endowment Land Trust are presented by fund as the Endowment Land Earnings Funds 101-114 in Note 2 – Assets: *Composition of Investment Pools and the Individual Investment Account* on pages 25-29. The Endowment Land Earnings Funds are permanent funds. Fund cost, in Note 2 - Assets, is presented and allocated based on historical cost for each of these funds in proportion to total amounts invested in pools 201 through 205 and pool 123. Fund fair value, in Note 2 – Assets, is presented based on current fair value of pools 201 through 205 and pool 123 allocated based on shares for each of these funds in proportion to the total funds invested in pools 201 through 205 and pool 123.

NOTE 2 – ASSETS

Deposits and Investments - Arizona Revised Statutes (A.R.S.) §§35-312 through 35-314 authorize the Treasurer to invest operating, trust, and permanent endowment fund monies in permitted investments. A.R.S. and the Treasurer's Investment Policies designed to administer the statutes restrict investments to obligations of the U.S. Government and its agencies; obligations or other evidence of indebtedness of the state and certain local government subdivisions; negotiable certificates of deposit; bonds, debentures and notes issued by entities which are U.S. dollar denominated; commercial paper issued by entities which are U.S. dollar-denominated; bankers acceptances; collateralized repurchase agreements; money market mutual funds; exchange traded funds; equities; and other securities. The investment pool or fund is designed in a manner which may not permit all such investments to be made. In accordance with the requirements of the statutes, deposits and investments at June 30, 2019 included collateralized repurchase agreements, bills, notes, and other obligations of the U.S. government and its agencies, Federal Deposit Insurance Corporation (FDIC) and negotiable certificates of deposit, corporate notes, corporate asset backed securities, corporate mortgage backed securities, commercial paper, money market mutual funds, municipal bonds, and equities of the S&P 400, S&P 500, and S&P 600 indexes (combined in the security category, equities).

The general disclosure requirements for deposit and investment policies for custodial credit risk, credit risk, concentration of credit risk, and interest rate risk are set forth in the analysis of each area below. Arizona statutes do not allow foreign investments unless the investment is denominated in U.S. dollars.

NOTE 2 – ASSETS (Cont'd)

Custodial Credit Risk – Deposits and Investments

Custodial credit risk for *deposits*, including non-negotiable certificates of deposit, is the risk that, in the event of the failure of a depository financial institution, the deposits or collateral securities may not be recovered from an outside party. Custodial credit risk for *investments* is the risk that, in the event of the failure of the counterparty to a transaction, the value of the investment or collateral securities that are in the possession of an outside party may not be recovered.

In accordance with A.R.S. and the Treasurer's Investment Policy, deposits are held in an eligible depository with its principal place of business in the United States which is insured by the FDIC. The statute further authorizes the Treasurer to enter into an agreement with the trust department of any bank authorized to do business in this state for safekeeping and handling of securities. The safekeeping and handling of investments are conducted through a bank trust department authorized to do business in this state. Securities received by the custodian are held in the Treasurer's name in book-entry form. Also, the securities custodian is not the counterparty. Underlying collateral securities for deposits, repurchase agreements, and tri-party repurchase agreements are held by the bank trust department and pledged on behalf of the State Treasurer's Office. Deposits, repurchase agreements, and tri-party repurchase agreements on deposit in the bank that are in excess of the FDIC insured amounts are collateralized at no less than 102%.

Investments

A.R.S. and the Treasurer's Investment Policy define the types of securities authorized as appropriate investments and the conditions for making investment transactions. The securities are reported at fair value on the Statement of Fiduciary Net Position. In addition, securities are reported in aggregate, by pool and fund, under the Composition of Investment Pools and the Individual Investment Account disclosure for cost and fair value amount.

The State Treasurer's Office invests in SEC-registered investment company shares that have readily available share prices. Fair values of securities are determined using State Street prices. State Street obtains prices from independent industry recognized data vendors who provide values that are either exchange based or based on an evaluated bid. Equities are priced utilizing the primary exchange closing price. All bonds are priced using an evaluated bid, except securities with a remaining maturity of 90 days or less are priced at amortized cost (amortizing premium/accreting discount on a straight-line to maturity method). The evaluated bid is based on a compilation of primary observable market information or a broker quote in a non-active market.

There is no income from investments associated with one fund that is assigned to another fund.

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligation to the holder of the investment. A.R.S. and the Treasurer’s Investment Policy require that commercial paper must be rated by at least two nationally recognized statistical rating organizations (NRSRO’s) and that the ratings assigned by at least two of the NRSRO’s be of the two highest rating categories for short-term obligations. Corporate bonds, debentures, notes, negotiable certificates of deposit, and municipal bonds must carry an investment grade rating by any NRSRO. For securities of or any other interests in any open-end management type investment company or investment trust including exchange traded funds, the underlying investments must be securities which are allowable under A.R.S. There is no statute or investment policy on ratings or credit quality for obligations issued by the U.S. government or its agencies or repurchase agreements. The underlying securities for repurchase agreements are either directly guaranteed by the U.S. government (Treasury securities) or implicitly guaranteed by the U.S. Government (Agency securities).

The rating for the LGIP pool as of June 30, 2019, is AAAf/S1+. The other investment pools are not rated by a NRSRO. The investments within all pools are rated, monitored and reported monthly.

* Securities in these categories were rated BBB or better at purchase date

Although the U.S. Agency Securities listed in the table are not backed by the full faith and credit of the federal government, investors generally treat agency securities as if they have negligible credit risk. Because of the importance of the agencies in promoting public policy, there is a widespread view that the federal government would prevent an agency or government-sponsored enterprise from defaulting on its debt obligations.

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. Arizona statutes do not include a requirement for concentration of credit risk. The State Treasurer's policy is to diversify the investment portfolio to minimize losses due to various circumstances, including issuer defaults; market price changes; non-earning assets; technical complications leading to a temporary lack of liquidity; or an over-concentration of assets in a specific maturity, a specific issuer, a specific geographical distribution, or a specific class of securities. The diversification policy provides that no more than five percent of the total of each pool or fund

(defined as five percent of the prior month's ending market value on the date purchased), or no more than five percent of the issues outstanding, whichever is less, shall be invested in securities issued by a single corporation and its subsidiaries/affiliates. This policy applies only to the LGIP and the LGIP Medium Term within the Investment Trust Funds, the Central Arizona Water Conservation District within the Individual Investment Accounts, and the State Agencies Diversified, State Operating, Early Childhood Development and Health Board (ECDHB), and the Endowment Land Trust's fixed income pools 205 and 123 within the Agency Funds. For Pools 205 and 123, any single issuer may not exceed five percent of the combined market value for both pools. Securities issued by the U.S. government or its agencies, sponsored agencies, corporations, sponsored corporations or instrumentalities are exempt. Also exempt from this policy is the purchase of Treasurer Warrant Notes for the State Agencies Diversified pool provided the maximum amount of the notes purchased shall not exceed 50 percent of the market value of the pool, bonds issued by an Agency of the State of Arizona, and pre-refunded municipal bonds issued by any entity that are invested in obligations issued or guaranteed by the U.S. government or any of its agencies, sponsored agencies, corporations, sponsored corporations or instrumentalities.

As of June 30, 2019, no investments in any one non-exempt issuer exceeded five percent of the State Treasurer's investments fair value.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment.

A.R.S. address the maximum maturity for local government investments and maximum duration for General Fund operating money investments. The Treasurer's Investment Policy incorporates the A.R.S. limitations and sets forth various thresholds or parameters relating to interest rate risk in accordance with each investment pool portfolio structure. The policy provides either maturity or duration limitations for various investment pools. The Treasurer manages its exposure to interest rate risk by purchasing a combination of shorter-term and longer-term investments and timing cash flows from maturities to meet projected cash flow and liquidity needs of the participants. The interest rate risk inherent in the portfolio is monitored monthly by measuring the weighted average maturity and/or duration.

Internal Investment Pools

Deposits made with the State Treasurer by State Agencies with statutory authority to invest and all General Fund monies are invested in various pooled funds. The State Agencies, the State Operating, the Permanent Endowment Land Trust pools, and the Early Childhood Development and Health Board (ECDHB), a Separately Managed Account which meets the minimum deposit requirements and terms as set by the State Board of Investment as authorized by A.R.S. §35-326.01, are internal investment pools. The State Agencies Diversified – Pool 3 and the State Operating – Pool 10 are managed by both internal and external portfolio managers. The pools are not required to register (and are not registered) with the Securities and Exchange Commission (SEC) under the Dodd-Frank Act of 2010. The activity and performance of the pools are reviewed monthly by the State Board of Investment in accordance with A.R.S. §35-311.

The fair value of investments is measured on a monthly basis.

Participant shares are purchased and sold based on the Net Position Value of the shares. The Net Position Value is determined by dividing the fair value of the portfolio by the total shares outstanding.

External Investment Pools

The Local Government Investment Pool (LGIP), Local Government Investment Pool - FF&C (LGIP-GOV), Local Government Investment Pool - Medium Term (LGIP-MT), and Local Government Investment Pool – Medium Term FF&C (LGIP-MT GOV) are external investment pools. The pools are not required to register (and are not registered) with the SEC under the Dodd-Frank Act of 2010. The activity and performance of the pools are reviewed monthly by the State Board of Investment in accordance with A.R.S. §35-311.

The LGIP's share of the Lehman Brothers bond value of \$39.4 million was transferred in September of 2008 to the Local Government Investment Lehman Brothers – Pool 57 due to Lehman Brothers filing for Chapter 11 bankruptcy protection on September 15, 2008. The transfer was made to provide for the decline in fair value of the Lehman Brothers securities held by the LGIP.

NOTE 2 - ASSETS (Cont'd)

In December of 2011, the United States Bankruptcy Court for the Southern District of New York entered an order confirming the Modified Third Amended Lehman Brothers Joint Plan of Liquidation. During the current year, approximately \$0.36 million was received as payout of funds being held by the Indenture Trustee for Lehman Brothers securities. The payout received will be allocated to participants based on the participant's share balance and then transferred to the LGIP Pool 5 reducing the carry or cost basis in the Local Government Investment Lehman Brothers - Pool 57. As of June 30, 2019, the carry or cost basis and the fair value for the Local Government Investment Lehman Brothers - Pool 57 were \$21.4 million and \$0.2 million, respectively. There was a distribution in June 2019 during Fiscal Year 2018-19. Future distributions are generally expected every year thereafter. The remaining amount to be recovered is unknown.

The fair value of investments is measured on a monthly basis.

Participant shares are purchased and sold based on the Net Position Value of the shares. The Net Position Value is determined by dividing the fair value of the portfolio by the total shares outstanding.

The State Treasurer's Office does not contract with an outside insurer in order to guarantee the value of the portfolio or the price of shares redeemed. The State Treasurer's Office only makes investments that are registered with the SEC or issued directly by the U.S. Treasury and federal agencies or from financial institutions which offer FDIC insured investments. The State Treasurer's Office is not an involuntary participant in another entity's external investment pool. The State Treasurer's Office is not aware of any involuntary participation in the pools. Participants meeting the criteria established under A.R.S. §35-316 are eligible to participate in the pools and are not required to disclose the reason for requesting the account.

Individual Investment Account

The Central Arizona Water Conservation District (CAWCD) is reported as an individual investment account.

**STATE OF ARIZONA
OFFICE OF THE TREASURER
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019**

NOTE 3 - MONIES ON DEPOSIT

The State Treasurer holds monies for state agencies, other political subdivisions (primarily counties, cities, and towns), and public entities. The unaudited detail of those monies, as recorded on the Arizona Financial Information System (AFIS) at June 30, 2019, is set forth in the supplemental information section titled, "Summary of Cash on Deposit with Treasurer".

The difference between the amount presented on the summary and total liabilities and net position equity reported on the Statement of Fiduciary Net Position is the result of timing differences and other reconciling items.

NOTE 4 – SECURITIES LENDING PROGRAM

The State Treasurer is permitted under A.R.S. §§35-313 and 35-324 to enter into securities lending transactions. The State Treasurer's custodial bank manages the securities lending program through a contractual agreement. At fiscal year-end, the State Treasurer had no credit risk exposure to borrowers because the amount the State Treasurer owes to the borrowers exceeds the amount the borrowers owe the State Treasurer. All securities are eligible for loan, but equities and U.S. Treasuries comprise a majority of securities that are on loan. There are no restrictions on the dollar amount of security loans that may be made by the State Treasurer. Securities are loaned for collateral that may include cash (U.S. currency), U.S. and non-U.S. equities and other assets permissible under Rule 15c3-3 under the Securities Exchange Act of 1934. Securities are loaned for collateral valued at not less than 102% of the market value of the securities loaned at the close of trading on the preceding business day. Investments made with cash collateral are done on an individual investment pool basis and are restricted to the limitations for that investment pool set forth in the State Treasurer's Investment Policy, except for investments made for the Endowment equity pools 201, 203 and 204 which are presented in the Note 2 in the Endowment Land Earnings Funds 101-114 as Equities. Permitted investments for these equity pools include those investments authorized in section IV of the State Treasurer's Investment Policy. Cash collateral investments include:

- A) obligations issued or guaranteed by the United States or any of its agencies, sponsored agencies, corporations, sponsored corporations or instrumentalities including repurchase, and tri-party repurchase agreements collateralized at no less than 102% by securities, 100% by cash, and 102% by mortgage-backed securities,
- B) U.S. 2a-7 money market mutual funds which are SEC regulated and rated in the highest category by at least one NRSRO.

The State Treasurer records the cash collateral received as an asset and the same amount as an obligation under security loan agreements. As of June 30, 2019, the cost and fair value of securities on loan were \$891.5 million and \$877.1 million, respectively. The associated fair value of the invested collateral was \$896.3 million, of which \$100.1 million was invested cash collateral. All securities loans can be terminated on demand by either the State Treasurer or the borrower. For the cash collateral investments, the weighted average maturity was 1 day. The State Treasurer

NOTE 4 – SECURITIES LENDING PROGRAM (Cont'd)

does not have the ability to pledge or sell the non-cash collateral unless there is a borrower default. The State Treasurer is indemnified against gross negligence, bad faith, or willful misconduct and borrower default by the lending agent. There were no borrower defaults during the current fiscal year. At June 30, 2019, the State Treasurer had \$100.1 million outstanding as payable for securities lending, and the following securities on loan were uninsured and held by the bank trust department not in the Treasurer's name as follows:

U.S. Treasury Securities	\$ 679,637,401
Equities	99,115,324
Corporate Notes	<u>470,864</u>
 TOTAL FAIR VALUE	 <u><u>\$ 779,223,589</u></u>

NOTE 5 – CUSTODIAL SECURITIES

In accordance with A.R.S., various state agencies deposit securities with the Treasurer for safekeeping. **STATE OF ARIZONA
OFFICE OF THE TREASURER
NOTE TO SUMMARY OF CASH ON DEPOSIT WITH TREASURER
JUNE 30, 2019**

(UNAUDITED)

NOTE - The Summary of Cash on Deposit with Treasurer schedule presents a detail summary of the monies the State Treasurer holds for state agencies, other political subdivisions (primarily counties, cities, and towns), and public entities for the year ended June 30, 2019, as recorded on the Arizona Financial Information System (AFIS) on essentially a cash basis. The operating fund balance (at cost) is \$3.6 billion, which includes the general fund's share (at cost) of \$1.2 billion.
