Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Basic Financial Statements Performed in Accordance with Government Auditing Standards

The Auditor General of the State of Arizona

The Board of Supervisors of
Yavapai County, Arizona

We have audited the financial statements of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of Yavapai County, Arizona (the County) as of and for the year ended June 30, 2008, which collectively comprise the County's basic financial statements and have issued our report thereon dated January 14, 2009. Our report was modified for an emphasis of a matter for the correction of an error in reporting and as to consistency for the implementation of the provisions of the Governmental Accounting Standards Board (GASB) Statement Nos. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*; 48, *Sales and Pledges of Receivables and Future Revenues and Intra-Entity Transfers of Assets and Future Revenues*; and 50, *Pension Disclosures (an amendment of GASB Statements No. 25 and No. 27)*, for the year ended June 30, 2008 and was also modified to include a reference to our reliance on other auditors. We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Other auditors audited the financial statements of the long-term care fund, as described in our report on the County's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Internal Control over Financial Reporting

In planning and performing our audit, we considered the County's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the basic financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. However, as discussed below, we identified a deficiency in internal control over financial reporting that we consider to be a significant deficiency.

A *control deficiency* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A *significant deficiency* is a control deficiency, or combination of control deficiencies, that adversely affects the County's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the County's financial statements that is more than inconsequential will not be prevented or detected by the County's internal control.

We consider the deficiency described in the accompanying schedule of findings and questioned costs as item 08-001 to be a significant deficiency in internal control over financial reporting.

A *material weakness* is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the County's internal control.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the internal control that might be significant deficiencies and, accordingly, would not necessarily disclose all significant deficiencies that are also considered to be material weaknesses. However, we do not believe that the significant deficiency described in the accompanying schedule of findings and questioned costs as item 08-001 is a material weakness.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's basic financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the Arizona State Legislature, the Auditor General of the State of Arizona, the Board of Supervisors, management, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record, and its distribution is not limited.

**Independent Auditors' Report on Compliance with Requirements
Applicable to Each Major Program and on Internal Control over
Compliance in Accordance with OMB-Circular A-133**

The Auditor General of the State of Arizona

The Board of Supervisors of
Yavapai County, Arizona

Compliance

We have audited the compliance of Yavapai County, Arizona (the County) with the types of compliance requirements described in the *U. S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2008. The County's major federal programs are identified in the Summary of Auditors' Results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the County's management. Our responsibility is to express an opinion on the County's compliance based on our audit.

We conducted our audit of compliance in accordance with U.S. generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the County's compliance with those requirements.

In our opinion, the County complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2008.

Internal Control over Compliance

The County's management is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the County's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A control deficiency in the County's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the County's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the County's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the County's internal control.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

Schedule of Expenditures of Federal Awards

We have audited the financial statements of the governmental activities, business-type activities, each major fund, and aggregate remaining fund information of Yavapai County as of and for the year ended June 30, 2008, and have issued our report thereon dated January 14, 2009. Our report was modified for an emphasis of a matter for the correction of an error in reporting and as to consistency for the implementation of the provisions of the Governmental Accounting Standards Board (GASB) Statement Nos. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*; 48, *Sales and Pledges of Receivables and Future Revenues and Intra-Entity Transfers of Assets and Future Revenues*; and 50, *Pension Disclosures (an amendment of GASB Statements No. 25 and No. 27)*, for the year ended June 30, 2008 and was also modified to include a reference to our reliance on other auditors. Our audit was performed for the purpose of forming our opinions on the financial statements that collectively comprise the County's basic financial statement.

The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

This report is intended solely for the information and use of the members of the Arizona State Legislature, the Auditor General of the State of Arizona, the Board of Supervisors, management, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record, and its distribution is not limited.

Yavapai County, Arizona
Notes to Schedule of Expenditures of Federal Awards
Year ended June 30, 2008

Note 1 - Basis of Accounting

The accompanying schedule of expenditures of federal awards includes the federal grant activity of Yavapai County, Arizona and is presented on the modified accrual basis of accounting, except for Payments In Lieu of Taxes (CFDA 15.226). For this program, revenues received during the fiscal year are considered earned and are reported as expenditures. The information on this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

The amount reported on the schedule for \$19,332 of the Food Donation (10.550) is the value of noncash assistance expended for each of the federal programs.

Note 2 - Catalog of Federal Domestic Assistance (CFDA) Numbers

The program titles and CFDA numbers were obtained from the federal or pass-through grantor or the 2008 *Catalog of Federal Domestic Assistance*.

Note 3 - Subrecipients

During 2008, the County passed \$301,467 in U.S. Department of Labor, Workforce Investment Act, funding to a subrecipient.

Yavapai County, Arizona
Schedule of Findings and Questioned Costs - Continued
Year ended June 30, 2008

Financial Statement Finding

08-001 - Improve Internal Controls over Monitoring

Yavapai County does not have sufficient resources in place to regularly monitor the performance of its internal controls. For example, the County has several decentralized locations that receive large quantities of cash receipts as part of their operations. However, the County currently does not regularly monitor these locations to determine whether the appropriate internal controls over cash receipts are in place and operating effectively. As a result, the County's risk of misappropriation of cash receipts is increased.

We recommend that the County devote additional resources to monitoring its internal controls over financial reporting. Many entities use internal auditors or personnel performing similar functions to perform such monitoring activities. Strengthening the process for monitoring internal controls may reduce the risk of misappropriation and noncompliance with laws, regulations and the terms of grants and contracts and may also identify opportunities for increased operating efficiency and effectiveness.

Federal Award Findings and Questioned Costs

No matters were identified that were required to be reported.
