Jennifer Pokorski,  
County Manager  
Effective 7/2/2024

December 19, 2024

301 W. Jefferson St.  
Phoenix, Arizona 85003

To the Honorable Board of Supervisors and Citizens of Maricopa County, Arizona:

P: 602-506-3561  
F: 602-506-4451

[Maricopa.gov](http://Maricopa.gov)

Arizona Revised Statute (A.R.S.) §41-1279.21 requires the Arizona Auditor General to conduct financial audits of the accounts and records of County governments. Pursuant to the statute, the Arizona Auditor General audited the Annual Comprehensive Financial Report (ACFR) of Maricopa County in accordance with generally accepted auditing standards for the year ended June 30, 2024.

This report consists of management's representations concerning the finances of Maricopa County. Consequently, management assumes full responsibility of the completeness and reliability of all the information presented in this report. To provide a reasonable basis for making these representations, management of Maricopa County has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for preparation of Maricopa County's financial statements in conformity with generally accepted accounting principles (GAAP). Because the cost of internal control should not outweigh their benefits, Maricopa County's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The goal of the independent audit was to provide reasonable assurance that the financial statements of Maricopa County for the fiscal year ended June 30, 2024, are free of material misstatement. The independent audit involves obtaining audit evidence about the amounts and disclosures in the financial statements. An audit includes assessments of risk of material misstatement of the financial statements, evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management as well as evaluating the overall financial statement presentation. The independent auditors expressed an unmodified opinion on the Maricopa County financial statements for the fiscal year ended June 30, 2024. The auditors concluded that the financial statements were considered fairly presented in conformity with GAAP. The independent auditors' report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of Maricopa County was part of a broader, federally mandated Single Audit designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. This report will be available in Maricopa County's separately issued Single Audit Report to be issued at a future date.

GAAP requires management's discussion and analysis (MD&A) immediately following the independent auditors' report and provides a narrative introduction, overview, and analysis of the basic financial statements. This MD&A complements this letter of transmittal and should be read in conjunction with it.

## County Profile

Maricopa County was established on February 14, 1871, and is located in the south-central portion of the State of Arizona. According to the Arizona Office of Economic Opportunity, at July 1, 2023, Maricopa County contained 62.0 percent of the State's total population (<https://www.azcommerce.com/oeo>). The County occupies 9,224 square miles making it the 15<sup>th</sup> largest county in land area in the United States. Phoenix is the capital of Arizona as well as the county seat for Maricopa County.

Maricopa County operates under a five-member elected Board of Supervisors who appoints a County Manager. The County Manager is responsible for the general administration and overall operations of the various County departments. The County has several elected officials including the Assessor, Clerk of the Superior Court, Constables, County Attorney, Recorder, Sheriff, Superintendent of Schools, and the Treasurer.

Maricopa County offers a wide variety of governmental services, including:

- *Community Resources:* Library District, Parks and Recreation, Stadium District, and Superintendent of Schools
- *County Administration:* Board of Supervisors, County Manager, Assessor's Office, Clerk of the Board, Elections, Office of Budget and Finance, Internal Audit, Recorder, Office of Procurement Services, Human Resources, Enterprise Technology, Treasurer's Office, and Facilities Management
- *Public Safety, Justice, and Law Enforcement:* Clerk of the Superior Court, County Attorney, Trial Court, Adult Probation, Juvenile Probation, Sheriff's Office, Public Defender, Emergency Management, Correctional Health, Planning and Development, Constables, Justice Courts, and Public Fiduciary
- *Public Health and Welfare Services:* Public Health, Air Quality, Human Services, Animal Care and Control, Environmental Services, Medical Examiner, and Waste Resources and Recycling
- *Public Works:* Flood Control District and Transportation Department

The annual budget serves as the foundation for Maricopa County's financial planning and control. The County is required by A.R.S. §42-17101 et. seq. to annually prepare and adopt a balanced budget. Arizona law further requires that no expenditure shall be made or liability incurred in excess of the amounts budgeted except as provided by law. Maricopa County's annual budget is available on the internet at the following address: <https://www.maricopa.gov/3668/Budget-Documents>.

## Economic Outlook

Maricopa County has a variety of industries within its boundaries with the majority comprised of high tech, financial, and service industries. Some of the major employers located in the state include Banner Health, the State of Arizona, Amazon.com Inc., Walmart Inc., Arizona State University, and various local governments (Phoenix Business Journal).

Because of a favorable climate and mild weather conditions, tourism is also a large factor in the strength of the local economy. Major sporting events can be held year-round and many people come to the area during the winter months. Maricopa County is the home to teams from major league professional sports, which include the Arizona Cardinals of the National Football League (NFL), Phoenix Suns of the National Basketball Association (NBA), Phoenix Mercury of the Women's National Basketball Association (WNBA), and Arizona Diamondbacks of the Major League Baseball (MLB). Maricopa County also hosts several major league baseball teams for the annual Cactus

League spring training. Maricopa County is also a host to other major sporting events such as the Waste Management Phoenix Open golf tournament and Phoenix International Raceway. Cities within Maricopa County also host college bowl games such as the Fiesta Bowl.

The outlook for Arizona is positive, and Arizona will continue to outpace the national economy, although demographic trends point to slower gains in both the short and long run ([www.azeconomy.org](http://www.azeconomy.org)). Maricopa County's unemployment rate is 3.4 percent as of September 2024, which remains below the State of Arizona and the United States unemployment rates of 3.9 percent (<https://fred.stlouisfed.org>).

## **Financial Policies and Long-Term Financial Planning**

**Financial Planning** – Maricopa County has a fiscally conservative management philosophy, which has allowed the County to be financially successful. Maricopa County prepares a five-year financial forecast, with the assistance of an economist, which is updated on a quarterly basis for several major funds, including the General Fund and Detention Operations Fund. The five-year forecast provides a conservative estimate of the County's fiscal condition given realistic economic trends, current Board policies, and existing laws. The forecast does not incorporate anticipated policy changes, spending priorities, or proposed new revenue sources.

**Capital Improvement Program** – Maricopa County's Capital Improvement Program (CIP) identifies capital projects to be completed over the next five years. Because these projects typically span more than one fiscal year, the plans are updated annually to track existing projects, identify new projects, and update funding estimates and forecasts. It is the County's philosophy and policy that new capital projects will be undertaken only if future operating revenues are reasonably estimated to be sufficient to support associated future operating costs. Operating costs associated with new facilities are budgeted by the user department in conjunction with the partnering department such as Facilities Management and Enterprise Technology. Estimated operating costs, as well as anticipated savings in lease costs and operating costs of facilities to be replaced are factored into the County's five-year financial forecast.

**Debt Management** – Maricopa County utilizes a modified "pay as you go" financial policy for large capital improvement projects, large technology projects, and other infrastructure. The County pays cash for many capital improvements or utilizes lease reversions or other funding sources from the General Fund to pay for large dollar projects.

**Cash Management** – Maricopa County maintains deposits and investments in the Treasurer's Pool and outside of the Treasurer's Pool. The Treasurer's Pool invests all idle monies not specifically invested for a fund or program. In addition, the Treasurer determines the fair value of those pooled investments monthly and at June 30th. Deposits and investments held outside of the Treasurer's Investment Pool represent a small portion of the County's total deposits and investments.

It is the County's investment policy to: collateralize all deposits by at least 102 percent of the deposits not covered by depository insurance; preserve the principal value and the interest income of an investment; hold investments to maturity, where practical, to avoid any loss on investments resulting from an early sale or retirement of an investment; and require all of the Treasurer's securities be held by the agent or trust department and in the County's name.

**Expenditure Limitation** – On June 30, 1980, Arizona voters approved general propositions amending the Arizona Constitution to establish expenditure and revenue limitations for local governments. The purpose of the expenditure limitation is to control expenditures and to limit future increases in spending to adjustments for inflation, deflation, and population growth of the County. The Constitution also limits the amount of revenues that may be generated from property taxes. A two-percent plus new construction annual increase is the maximum allowed by law unless special voter approval is obtained. This report will be available in Maricopa County's separately issued Expenditure Limitation Report to be issued at a future date.

## Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Maricopa County for its annual comprehensive financial report for the fiscal year ended June 30, 2023. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both U.S. general accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current annual comprehensive financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation and audit of this report could not be accomplished without the efficient and dedicated services of the Office of Budget and Finance staff, the assistance of administrative personnel in the various departments, and the competent service of the Arizona Auditor General. We appreciate all of those who assisted in and contributed to the preparation of this report. We also wish to express our sincere appreciation to the Board of Supervisors for their support in planning and overseeing the financial operations of the County in a responsible and progressive manner.

Respectfully submitted,

*Jennifer Pokorski*

## Independent auditors' report

Members of the Arizona State Legislature

The Board of Supervisors of  
Maricopa County, Arizona

### Report on the audit of the financial statements

#### Opinions

We have audited the accompanying financial statements of the governmental activities, aggregate discretely presented component units, each major fund, and aggregate remaining fund information of Maricopa County as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

In our opinion, based on our audit and the reports of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, aggregate discretely presented component units, each major fund, and aggregate remaining fund information of the County as of June 30, 2024, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with U.S. generally accepted accounting principles.

We did not audit the financial statements of 3 departments and the discretely presented component units, which account for the following percentages of the assets and deferred outflows of resources, liabilities and deferred inflows of resources, revenues, and expenses or expenditures of the opinion units affected as of June 30, 2024:

Opinion unit/department or component unit	Assets and deferred outflows	Liabilities and deferred inflows	Revenues	Expenses/ expenditures
<u>Government-wide statements</u>				
Governmental activities:				
Stadium District	2.29%	0.04%	0.23%	0.69%
Risk Management	0.25%	2.33%	1.45%	1.34%
Employee Benefits Trust	1.37%	1.01%	5.83%	7.22%
Aggregate discretely presented component units:				
Industrial Development Authority	10.45%	59.36%	6.93%	8.10%
Housing Authority	89.55%	40.64%	93.07%	91.90%
<u>Fund statements</u>				
Aggregate remaining fund information:				
Stadium District	0.05%	0.30%	0.04%	0.07%
Risk Management	0.31%	17.18%	0.28%	0.21%
Employee Benefits Trust	1.72%	7.41%	1.13%	1.14%

Those statements were audited by other auditors, whose reports have been furnished to us, and our opinions, insofar as they relate to the amounts included for those departments and component units, are based solely on the other auditors' reports.

***Basis for opinions***

We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the U.S. Comptroller General. Our responsibilities under those standards are further described in the auditors' responsibilities for the audit of the financial statements section of our report. We are required to be independent of the County and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

***Emphasis of matters***

As discussed in Note 1 to the financial statements, for the year ended June 30, 2024, the County adopted new accounting guidance, Governmental Accounting Standards Board Statement No. 100, *Accounting Changes and Error Corrections*. Our opinions are not modified with respect to this matter.

***Other matters***

*Compliance over the use of Highway User Revenue Fund and other dedicated State transportation revenue monies*

In connection with our audit, nothing came to our attention that caused us to believe that the County failed to comply with the authorized transportation purposes, insofar as they relate to accounting matters, for Highway User Revenue Fund monies it received pursuant to Arizona Revised Statutes Title 28, Chapter 18, Article 2, and any other dedicated State transportation revenues it received. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the County's noncompliance with the authorized transportation purposes referred to above, insofar as they relate to accounting matters.

The communication related to compliance over the use of Highway User Revenue Fund and other dedicated State transportation revenue monies in the preceding paragraph is intended solely for the information and use of the members of the Arizona State Legislature, the County's Board of Supervisors and management, and other responsible parties within the County and is not intended to be and should not be used by anyone other than these specified parties.

***Management's responsibilities for the financial statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. generally accepted accounting principles, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

## ***Auditors' responsibilities for the audit of the financial statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with U.S. generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with U.S. generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we express no such opinion.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the audit's planned scope and timing, significant audit findings, and certain internal control-related matters that we identified during the audit.

### ***Required supplementary information***

U.S. generally accepted accounting principles require that the management's discussion and analysis on pages 13 through 23, budgetary comparison schedules on pages 103 through 108, schedule of the County's proportionate share of the net pension liability—cost-sharing plans on pages 110 through 111, schedule of changes in the County's net pension liability and related ratios—agent plans on pages 112 through 115, schedule of County pension contributions on pages 116 through 117, schedule of the County's proportionate share of the net OPEB liability (asset)—cost-sharing plans on page 118 through 119, schedule of the changes in the County's net OPEB liability (asset) and related ratios—agent plans on pages 120 through 123, schedule of County OPEB contributions on page 124 through 125, and the modified approach for infrastructure assets information on page 128 be presented to supplement the basic financial statements. Such information is management's responsibility and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and the other auditors have applied certain limited procedures to the required supplementary information in accordance with U.S. generally accepted auditing standards, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other

knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### ***Supplementary information***

#### *Combining and individual nonmajor fund financial statements and schedules*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The accompanying combining and individual nonmajor fund financial statements and schedules are presented for purposes of additional analysis and are not required parts of the basic financial statements. Such information is management's responsibility and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with U.S. generally accepted auditing standards by us and the other auditors. In our opinion, based on our audit, the procedures performed as described above, and the reports of the other auditors, the accompanying combining and individual nonmajor fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### ***Other information***

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance on the other information.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

### ***Other reporting required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we will issue our report on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters at a future date. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

## Management’s Discussion and Analysis

This discussion and analysis is intended to be an easily readable analysis of Maricopa County’s (County) financial activities based on currently known facts, decisions or conditions. This analysis focuses on current year activities and should be read in conjunction with the Transmittal Letter that begins on page 1 and with the County’s basic financial statements following this section.

### Financial Highlights

- The total assets and deferred outflows of resources of the County exceeded its liabilities and deferred inflows of resources at the close of the fiscal year by \$5,641.3 million (net position), an increase of 13.9 percent from the prior year restated amount. Of this amount, \$4,291.0 million is invested in capital assets, \$829.5 million is subject to external restrictions, and \$520.8 million is unrestricted.

The County’s total net position as reported in the Statement of Activities increased by \$687.0 million from the prior year restated amount. The County’s primary sources of revenue are from intergovernmental, taxes, operating grants and contributions, and charges for services.

- The County’s governmental funds reported combined fund balances of \$2,379.9 million, a decrease in fund balance of \$57.9 million from the prior fiscal year’s balance. Approximately 99.4 percent of the combined fund balances, or \$2,366.6 million, is spendable and available to meet the County’s current and future needs.
- Spendable fund balance for the General Fund decreased by 7.6 percent to \$407.3 million; approximately 26.1 percent of total General Fund expenditures. See page 18 for a description of spendable fund balance. In accordance with Arizona Revised Statutes (A.R.S.), this entire amount is budgeted for the next fiscal year. A.R.S. §42-17151 requires that total estimated sources of revenue must equal the total estimated expenditures in the budget for the current fiscal year. In addition, A.R.S. §42-17102 stipulates that the estimated expenditures may include an amount for unanticipated contingencies or emergencies.

### Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements consist of three components: 1) Government-wide financial statements, 2) Fund financial statements, and 3) Notes to the basic financial statements. Required Supplementary Information is included in addition to the basic financial statements. The Combining and Individual Fund Statements and Schedules – Nonmajor Funds begin on page 131.

**Government-wide Financial Statements** are designed to provide readers with a broad overview of the County's finances, in a manner similar to private-sector businesses.

- The *Statement of Net Position* presents information on all County assets and deferred outflows of resources and liabilities and deferred inflows of resources, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.
- The *Statement of Activities* presents information showing how net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of these government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the County include general government; public safety; highways and streets; health, welfare and sanitation; culture and recreation; education; and interest on long-term debt. The County has no business-type activities.

Component units are legally separate entities for which the County is considered to be financially accountable. Blended component units, although legally separate entities, are in substance part of the County's operations. Therefore, data from these units is combined with data of the primary government. Discretely presented component units, on the other hand, are reported in a separate column in the government-wide financial statements to emphasize they are legally separate from the County. The Maricopa County Flood Control District, Maricopa County Library District, Maricopa County Special Assessment Districts, Maricopa County Stadium District, and the Maricopa County Street Lighting Districts are reported as blended component units. The Housing Authority of Maricopa County and Industrial Development Authority of Maricopa County are reported as discretely presented component units.

*The Government-wide financial statements can be found on pages 29-31 of this report.*

**Fund Financial Statements** are groupings of related accounts that are used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate finance-related legal compliance. All of the funds of the County can be divided into three categories: *governmental funds*, *proprietary funds* and *fiduciary funds*.

- **Governmental funds** are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental funds financial statements focus on *near-term inflows* and *outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a county's near-term financing requirements. Governmental funds include the general, special revenue, debt service, and capital projects funds.

## Management's Discussion and Analysis (Continued)

---

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds Balance Sheet and the governmental funds Statement of Revenues, Expenditures, and Changes in Fund Balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The County reports six major governmental funds. Information is presented separately in the governmental funds Balance Sheet and in the governmental funds Statement of Revenues, Expenditures, and Changes in Fund Balances for the General Fund, Coronavirus Fiscal Recovery Fund, Detention Operations Fund, Opioid Abatement Fund, County Improvement Fund, and General Fund County Improvements Fund.

Data from the other governmental funds (nonmajor) are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of *combining statements*, which begin on page 131 of this report.

*The governmental funds financial statements can be found on pages 32-38 of this report.*

- **Proprietary funds** are used to account for the County's internal service funds. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among the County's various functions. The County uses internal service funds to account for its equipment services, technology infrastructure, risk management, employee benefits trust, and sheriff warehouse functions. Because these services predominantly benefit governmental rather than business-type functions, they have been included within *governmental activities* in the government-wide financial statements.

The County's internal service funds are combined into a single, aggregated presentation in the proprietary funds financial statements. Individual fund data for the internal service funds is provided in the form of combining statements, which begin on page 287 of this report.

*The proprietary funds financial statements can be found on pages 39-41 of this report.*

- **Fiduciary funds** are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

*The fiduciary funds financial statements can be found on pages 42-43 of this report.*

**Notes to the Financial Statements** provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes can be found on pages 45-99 of this report.

**Required Supplementary Information** is presented concerning the County's General Fund, Coronavirus Fiscal Recovery Fund, Detention Operations Fund, and Opioid Abatement Fund. A budgetary comparison schedule has been provided for these funds to demonstrate compliance with budget and additional information is provided in the Notes to Budgetary Comparison Schedules. In addition, the following schedules related to the County's pension and OPEB plans are presented: Schedule of the County's Proportionate Share of Net Pension Liability – Cost-Sharing Pension Plans, Schedule of Changes in the County's Net Pension Liability and Related Ratios – Agent Plans, Schedule of County Pension Contributions, Schedule of the County's Proportionate Share of Net OPEB Liability (Asset) – Cost-Sharing Pension Plans, Schedule of Changes in the County's Net OPEB Liability (Asset) and Related Ratios – Agent Pension Plans, Schedule of County OPEB Contributions and Notes to the Pension/OPEB Plan Schedules. Also presented is the Modified Approach for Infrastructure Assets. Required supplementary information can be found on pages 101-128 of this report.

### Government-wide Financial Analysis

#### Net Position

Net position may serve over time as a useful indicator of a government's financial position. The following table reflects the condensed Statement of Net Position of the County for June 30, 2024, as compared to the prior year.

	Governmental Activities		% Chg P/Y
	2024	2023	
Current and other assets	\$ 3,534.0	\$ 3,623.0	(2.5)%
Capital assets	<u>4,532.8</u>	<u>4,177.9</u>	8.5
Total assets	<u>8,066.8</u>	<u>7,800.9</u>	3.4
Deferred outflows	<u>541.7</u>	<u>614.3</u>	(11.8)
Current liabilities	821.9	907.7	(9.5)
Long-term liabilities	<u>2,031.7</u>	<u>2,467.2</u>	(17.7)
Total liabilities	<u>2,853.6</u>	<u>3,374.9</u>	(15.4)
Deferred inflows	<u>113.6</u>	<u>86.0</u>	32.1
Net position			
Net investment in capital assets	4,291.0	4,014.9	6.9
Restricted	829.5	921.7	(10.0)
Unrestricted	<u>520.8</u>	<u>17.7</u>	2,842.4
Total net position	<u>\$ 5,641.3</u>	<u>\$ 4,954.3</u>	13.9

By far, the largest portion - \$4.3 billion - of the County's net position reflects the investment in capital assets (e.g., land, buildings and improvements, machinery and equipment, infrastructure, construction in progress, development in progress, and intangibles), less accumulated depreciation/amortization and any related debt used to acquire those assets which is still outstanding. Net position invested in capital assets increased by \$276.1 million due to an increase in net capital assets of \$354.9 and an increase in capital asset related debt of \$78.9 million. The increase in capital assets is attributed to an increase in depreciable and non-depreciable capital assets (net of accumulated depreciation/amortization) of \$278.8 and \$76.7 million, respectively. See page 20-21 for additional detail on capital asset changes.

The County uses capital assets to provide services to its citizens; consequently, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The second component of the County's total net position, \$829.5 million, represents resources that are subject to external restrictions on how they may be used. This component decreased by \$92.1 million from the prior year. During fiscal year 2024, the County made a \$190.0 million payment to the Public Safety Retirement System by using the remaining proceeds from the Pledged Revenue Obligations, Series 2022. In addition, the County recognized \$77.3 million in opioid related settlement revenues.

## Management's Discussion and Analysis (Continued)

The final component consists of an unrestricted surplus of \$520.8 million, which increased from fiscal year 2023 by \$503.1 million. The increase in unrestricted net position is primarily the result of an increase in the General Fund County Improvement Fund's committed fund balance of \$372.8 million and the net effect of pension and OPEB entries.

### ***Changes in Net Position***

As discussed previously, the County's total net position of \$5.6 billion increased by \$687.0 million as reported in the Statement of Activities. The following table reflects the condensed Statement of Activities of the County for the fiscal year 2024 compared to the prior year and indicates the changes in net position for governmental activities:

### **Statement of Activities For the year ended June 30 (in millions)**

	Governmental Activities		% Chg P/Y
	2024	2023	
Revenues:			
Program revenues:			
Charges for services	\$ 421.5	\$ 333.7	26.3%

<b>Total Expenses</b>	<u>2,857.8</u>	<u>2,877.3</u>	<b>(0.7)</b>
Change in net position	687.0	346.5	98.3
Net position – beginning	4,954.3	4,607.8	7.5
Net position – ending	<u>\$ 5,641.3</u>	<u>\$ 4,954.3</u>	<b>13.9</b>

\* The functions of culture and recreation, education, and interest on long-term debt are shown in the condensed Statement of Activities above as other expenses.

One of the main differences a reader will see between the governmental funds reported in the fund financial statements and the Statement of Activities is that governmental funds in the fund financial statements report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is reported as a capital asset and the expense of those assets is allocated over their estimated useful lives and reported as depreciation expense within the expense line items. Capital outlay expenditures exceeded depreciation/amortization expense in the current period by \$356.9 million.

In the government-wide Statement of Activities, the significant revenues reported included unrestricted intergovernmental, taxes, and operating grants and contributions, which represent 33.0, 30.4, and 16.5 percent, respectively, of total revenues for fiscal year 2024.

## Management's Discussion and Analysis (Continued)

---

Tax revenues in total increased \$22.7 million primarily as a result of an increase in property taxes and jail excise tax of \$13.2 and \$8.9 million, respectively. The increase in property taxes can be attributed to increases in the assessed values of property from the prior fiscal year. Intergovernmental revenue, which consists of state shared sales tax, vehicle license taxes and unrestricted grants, increased \$39.7 million from the prior fiscal year. This increase is primarily attributable to increases in the state shared sales tax and vehicle license taxes of \$32.4 and \$6.9 million, respectively. The increases in jail excise tax, and state shared sales tax revenues are a result of a strong economy throughout the fiscal year. Capital grants and contributions increased by \$54.4 million from the prior year as capital contributions attributed to highways and streets and public safety increased by \$54.6 million, offset by the decrease in culture and recreation of \$0.2 million. Operating grants and contributions decreased by \$1.9 million from the prior fiscal year as the result of the decrease of health, welfare and sanitation revenues of \$31.2 million and education revenues of \$3.1 million, offset by the increase in revenues in other governmental activities of \$32.4 million. Other revenues increased by \$118.3 million as a result of increase in unrestricted investment earnings of \$90.2 million and miscellaneous revenues of \$28.1 million.

Tax and other operating revenues provide the principal support for the functions of the County, which include general government; public safety; highways and streets; health, welfare, and sanitation; culture and recreation; and education. Total expenses decreased by \$19.5 million or 0.7 percent from the prior fiscal year, which is attributed to decreases in highways and streets, health welfare and sanitation, and other expenses of \$56.4, \$21.0, and \$13.0 million, respectively, offset by increases in public safety and general government of \$46.3 and \$24.6 million, respectively. Expenditures in the Pension Reserve Fund and Human Services Grants Fund decreased by \$70.0 and \$45.5 million, respectively, from the prior fiscal year. In addition, expenditures in the General Fund increased by \$122.6 million.

### Financial Analysis of the County's Funds

As noted earlier, the County uses *fund accounting* to ensure and demonstrate compliance with finance-related legal requirements. In order to provide comparative discussion of fund balances to the prior year, the analysis below of 'spendable' balance represents restricted, committed, assigned, and unassigned fund balance.

**Governmental Funds.** Governmental activities are contained in the general, special revenue, debt service, and capital projects funds. The focus of the County's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the County's financing requirements. In particular, *spendable fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of June 30, 2024, the governmental funds reported combined fund balances of \$2,379.9 million, which was a decrease in fund balance of \$57.9 million from the prior fiscal year. Approximately 99.4 percent of the combined fund balances, or \$2,366.6 million, is available to meet the County's current and future needs (spendable fund balance). The remaining fund balance is reserved for inventories.

The following funds are the County's major governmental funds:

#### *General Fund*

The General Fund is the County's primary operating fund. At the end of the current fiscal year, spendable fund balance of the General Fund was \$407.3 million, while total fund balance was \$413.0 million. This represents a decrease in the spendable fund balance from the prior year of \$33.7 million, or 7.6 percent. As a measure of the General Fund's liquidity, it may be useful to compare both spendable fund balance and total fund balance to the total fund expenditures. Spendable fund balance represents 26.1 percent of the total fiscal year 2024 General Fund expenditures, while total fund balance represents 26.5 percent of that same amount. These ratios indicate a strong fund balance position in comparison to expenditures. In

## Management's Discussion and Analysis (Continued)

---

addition, Maricopa County operates on a structurally balanced budget as fiscal year 2025 operating expenditures are expected to be fully funded by fiscal year 2025 revenues.

During fiscal year 2024, the General Fund reported a decrease in fund balance of \$33.4 million, an increase of \$231.2 million from the prior fiscal year negative change in fund balance of \$264.7 million. Revenues increased by \$128.4 million from the prior fiscal year as a result of increases in interest income due to the fair market value adjustment, state shared sales tax, miscellaneous, property tax, state shared VLT, intergovernmental charges for services, judicial charges for services, and miscellaneous sale of assets of \$44.5, \$32.3, \$29.0, \$8.0, \$6.9, \$5.3, \$1.5 and \$0.9 million, respectively, with decreases in other charges for services of \$1.4 million. Transfers out decreased by \$235.4 million, and total expenditures increased by \$122.6 million. The decrease in transfers out is primarily a result of decreases in transfers to the Pledged Revenue Fund (debt service fund) of \$312.7 million offset by increase in transfers out to General Fund County Improvements Fund, Detention Fund, and County Improvement Debt Fund of \$52.1, \$13.0, and \$7.8 million, respectively. The increase in expenditures is primarily attributable to the Qasimyar vs. Maricopa County class action property tax-related lawsuit which was settled in February 2024. See Note 14 – Claims and Judgments for additional information. In addition, personnel costs increased \$51.5 million.

### *Coronavirus Fiscal Recovery Fund*

The Coronavirus Fiscal Recovery Fund is a special revenue fund that accounts for the Coronavirus State and Local Fiscal Recovery Funds authorized under Subtitle M of the American Rescue Plan Act (ARPA) of 2021 to mitigate the fiscal effects stemming from the public health emergency with respect to the Coronavirus Disease (COVID-19). At the end of the fiscal year, restricted fund balance was \$18.2 million. In addition, the unearned revenue amount of \$307.1 million represents the remaining ARPA funding not yet spent.

### *Detention Operations Fund*

The Detention Operations Fund is a special revenue fund that was established under the authority of propositions 400 and 401, which were passed in the General Election of November 3, 1998. These propositions authorized a temporary 1/5 of one-cent sales tax to be used for the construction and operation of adult and juvenile detention facilities. On November 5, 2002, the voters approved the extension of the 1/5 of one-cent sales tax in the General Election to be used for jail facility operations. The extension begins in the month following the expiration of the original tax and may continue for not more than twenty years after the date the tax collection begins. The Detention Operations Fund accounts for the receipt of tax revenue, jail operations expenditures, and transfers to the Detention Capital Projects Fund and Detention Technology Capital Improvement Fund for construction of the adult and juvenile detention facilities and detention technology infrastructure.

The Detention Operations Fund accounts for the jail tax revenue along with transfers from the General Fund for maintenance of effort (MOE). The MOE transfer from the General Fund is used to support the jail detention operations. Arizona Revised Statutes require the County to calculate the maintenance of effort transfer on an annual basis. The Detention Operations Fund transfers monies to the Detention Capital Projects Fund for the construction of the jail and detention facilities. At the end of the current fiscal year, total fund balance of the Detention Operations Fund was \$101.1 million, of which 95.7 percent is restricted and considered spendable. This was an increase in total fund balance of \$18.0 million, or 21.6 percent from the prior fiscal year. This is primarily attributable to positive net transfers of \$185.8, offset by expenditures greater than revenues of \$171.0 million. Operating transfers consisted primarily of the transfer in for MOE from the General Fund of \$214.6 million and transfers out to the Detention Capital Projects Fund of \$31.6 million. The amounts transferred out of the Detention Operations Fund for any given year are determined through the budget planning process.

### *Opioid Abatement Fund*

The Opioid Abatement fund is a special revenue fund that was established in fiscal year 2022 and accounts for monies received as part of the One Arizona Memorandum of Understanding (MOU) Settlement

## **Management’s Discussion and Analysis (Continued)**

---

Agreement. The fund was reported as a nonmajor fund in fiscal year 2023. The monies shall be used for opioid abatement strategies which include treatment, recovery, and prevention. At the end of the current fiscal year, fund balance of the Opioid Abatement Fund was \$27.2 million, an increase of \$16.8 million from prior year. The increase was the result of settlement revenues exceeding expenditures for the fiscal year.

### *County Improvement Fund*

The County Improvement Fund is a capital projects fund that was established in fiscal year 2015 and accounts for capital projects funded through the issuance of long-term debt obligations and transfers from other County funds. At the end of the current fiscal year, fund balance of the County Improvement Fund was \$168.0 million, an increase of \$92.8 million from prior year. The increase was primarily the result of the issuance of the Certificates of Participation, Series 2024 of \$190.5 million offset by capital outlay expenditures and transfers out of \$91.6 and \$8.3 million, respectively.

### *General Fund County Improvements Fund*

The General Fund County Improvements Fund is a capital projects fund that accounts for capital projects funded by transfers from the General Fund. Projects that are currently funded primarily consist of justice and administrative projects. At the end of the current fiscal year, fund balance of the General Fund County Improvements Fund was \$1,125.8 million, all of which is committed and considered spendable. The fund balance in this fund increased \$372.8 million from the prior fiscal year as a result of the net transfers of \$381.2 million, offset by capital outlay expenditures of \$8.4 million. Fiscal year 2024 transfers primarily consisted of transfers in from the General Fund and Technology Capital Improvement Fund of \$374.2 and \$12.1 million, respectively, which were offset by transfers out to the General Fund of \$10.3 million.

## **General Fund Budgetary Highlights**

The difference between the original budget and the final amended budget for the General Fund resulted in no significant change in revenues and expenditures. A significant favorable expenditure variance, as compared to the budget, was incurred in the Non-Departmental department (general government function) of \$68.2 million. The savings were a result of the budget for Non-Departmental contingencies that were unused during the year. None of the variances between the budget and actual amounts were significant enough to affect the County’s ability to provide future services.

## **Capital Assets and Long-Term Liabilities**

### **Capital Assets**

The County’s capital assets balance for its governmental activities as of June 30, 2024, was \$4.5 billion (net of accumulated depreciation/amortization). Capital assets include land, buildings and improvements, infrastructure, machinery and equipment, construction in progress, development in progress, and intangibles. The County reports infrastructure assets, which consist of the Flood Control District and Transportation Department infrastructure, in the government-wide financial statements in accordance with GASB Statement No. 34. Additional information regarding infrastructure assets can be found in the Notes to the Financial Statements (Note 1 – Summary of Significant Accounting Policies and Note 12 – Capital Assets).

The Flood Control District infrastructure assets consist of drainage systems, dams, flood channels and canals. Flood Control infrastructure is reported using the depreciation approach and the County uses the straight-line method of depreciation on these assets. At June 30, 2024, Flood Control District infrastructure-related assets consisted of infrastructure (net of accumulated depreciation), construction in progress, and land of \$468.6, \$309.6, and \$234.6 million, respectively.

The Transportation Department infrastructure assets consist of a roadway system and a bridge system. Both systems are reported under the modified approach, which means the County will maintain the assets

## Management's Discussion and Analysis (Continued)

using an asset management system and will document that the infrastructure assets are being preserved at the established condition level. During fiscal year 2024, the condition level of both systems remained the same as the prior year. Actual maintenance/preservation costs varied by \$2.2 million and \$4.4 million from the estimated costs for the roadway and bridge system, respectively. Roadway and Bridge System maintenance is predicated by the Federal clearance process. See Required Supplementary Information on page 128 for additional information. At June 30, 2024, Transportation Department infrastructure-related assets consisted of infrastructure, land, and construction in progress of \$817.8, \$480.3, and \$289.2 million, respectively.

Capital assets for governmental activities are presented below (in millions) to illustrate changes from the prior year:

	Governmental Activities		% Chg P/Y
	2024	2023	
Land	\$872.8	\$829.9	5.2%
Infrastructure	817.8	808.6	1.1
Construction in progress	738.7	512.8	44.1
Development in progress	0.5		100.0
Buildings and improvements (net of accumulated depreciation)	1,516.8	1,492.8	1.6
Machinery and equipment (net of accumulated depreciation)	110.2	105.6	4.4
Infrastructure (net of accumulated depreciation)	294.2	284.5	3.4
Intangibles (net of accumulated amortization)	181.9	143.5	26.8
Totals	<u>\$4,532.9</u>	<u>\$4,177.7</u>	8.5

Capital assets, net of accumulated depreciation, increased by \$355.2 million, or 8.5 percent, from the prior year. The most significant impacts on this increase in the fiscal year ended June 30, 2024, were increases in non-depreciable construction in progress, land, intangibles (net of accumulated amortization), buildings and improvements (net of accumulated depreciation), and infrastructure (net of accumulated depreciation) of \$225.9, \$42.9, \$38.4, \$24.0, and \$9.7 million respectively.

### **Long-Term Liabilities**

Maricopa County has the following bond ratings:

<u>Debt Instrument &amp; Rating Agency</u>	<u>Rating</u>	<u>Date Awarded</u>
<i>General Obligation Bonds (implied or issuer credit rating)</i>		
Standard & Poor's	AAA	January 2020
Fitch Ratings	AAA	January 2023
Moody's Investor Services	Aaa	January 2020
<i>Certificates of Participation</i>		
Standard & Poor's	AA+	January 2020
Fitch Ratings	AA+	January 2023
Moody's Investor Services	Aa1	January 2020

At June 30, 2024, the County had total long-term liabilities (noncurrent liabilities due within one year and more than one year) outstanding of \$2,031.7 million, which represents a \$435.5 million decrease from the prior year balance of \$2,467.2 million. The majority of the decrease is attributable to governmental activities and is comprised of net increases in certificates of participation, subscription based information technology arrangements, and leases payable of \$96.4, \$40.2, and \$4.7 million respectively, which were

## Management's Discussion and Analysis (Continued)

---

offset by net decreases in net pension and other post-employment benefits liability, pledged revenue obligations, financed purchase agreements, and reported and incurred but not reported claims payable of \$310.2, \$251.8, \$5.9 and \$7.0 million, respectively. The largest components of long-term liabilities at June 30, 2024, consisted of net pension and other postemployment benefits liability of \$1,568.7 million, certificates of participation of \$190.5 million, subscription based information technology arrangements of \$99.8 million, and reported and incurred but not reported claims of \$83.4 million.

Certificates of participation applicable to governmental activities are paid from the County Improvement Debt Fund (debt service fund), which is funded by transfers from the General Fund. At June 30, 2024, the fund balance in the County Improvement Debt Fund to pay future liabilities was \$18.6 million.

Reported and incurred but not reported claims applicable to governmental activities of \$83.4 million are reported in the Risk Management and Employee Benefits Trust funds (internal service funds). This is a decrease of \$7.0 million from the prior year. This liability is primarily related to actuarial estimates for the County's self-insured portion of future claims for general litigation related to torts; thefts of, damage to, and destruction of assets; errors and omissions; injuries to employees; natural disasters; and certain health benefits that are paid through the operations of the funds. Additional information regarding long-term liabilities can be found in the Notes to Financial Statements (Note 15 – Long-Term Liabilities and Note 18 – Risk Management).

Net pension and other postemployment benefits (OPEB) liabilities applicable to governmental activities of \$1.6 billion represent the difference between: 1) the total amount due to retirees for their future benefit obligations from employee services, less 2) the actual amount of assets on hand to make those payments. Therefore, unfunded pension and OPEB liabilities indicate that future benefit obligations to retirees are greater than the assets on hand to make those payments. These amounts are determined annually based on actuarial assumptions.

### Economic Factors and Next Year's Budget and Rates

- The Arizona economy has normalized somewhat during the first half of 2024 and continues with solid but slowing growth. Job hiring rates have returned to pre-pandemic levels and real income growth has accelerated. Inflation has moderated and remains below the national rate. ([www.azecconomy.org](http://www.azecconomy.org)).
- The unemployment rate in Maricopa County is 3.4 percent as of September 2024, which remains below the State of Arizona and United States unemployment rate of 3.9 percent. (<https://fred.stlouisfed.org>).
- The Arizona Office of Economic Opportunity reports that Maricopa County's population increased by 1.7 percent from fiscal year 2022 to 2023. Maricopa County's population increased 18.3 percent from 2014 to 2023, which is higher than the United States' overall population increase of 5.2 percent for the same time period (<https://www.azcommerce.com/oeo> and <https://census.gov>).

As part of the annual budget planning process, the County's Office of Budget and Finance developed a financial forecast to assist in both short and long range financial planning. This forecast provides a conservative estimate of the County's fiscal condition through the next five years. The forecast was instrumental in the determination of the fiscal year 2025 budget and tax rate, which took into account several significant trends:

- Property tax revenues are the product of two factors, the assessed valuation of all properties in the County and the property tax rate. For fiscal year 2025, the adopted tax rate decreased from \$1.2044 to \$1.1591.

## **Management's Discussion and Analysis (Continued)**

---

- The fiscal year 2025 tax levy increased by \$17.0 million from fiscal year 2024, as a result of a \$3.6 billion increase in net assessed values. Yearly assessed property valuation growth rates are anticipated to increase by approximately 3.9 percent from fiscal year 2026 through 2029.
- Fiscal year 2025 annual collections of State Shared Sales Tax, Vehicle License Tax, Highway User Revenues and County Jail Excise Tax revenues are expected to increase by 2.0, 3.0, 2.1 and 1.5 percent, respectively, from the prior year.

In accordance with A.R.S., the General Fund spendable fund balance amount (see page 18 for more information) will be budgeted in the next fiscal year. A.R.S. §42-17151 requires that total estimated sources of revenue must equal the total estimated expenditures in the budget for the current fiscal year. The estimated expenditures may include an amount for unanticipated contingencies or emergencies, per A.R.S. §42-17102.

## Definitions of Government-wide Financial Statements and Listing of Major Funds

---

### Government-wide Financial Statements

The **Statement of Net Position** presents information on all of Maricopa County's assets and deferred outflows of resources and liabilities and deferred inflows of resources, with the difference reported as net position.

The **Statement of Activities** presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows.

The above two statements are presented utilizing the following types of activities:

**Governmental Activities** – generally are financed through taxes and intergovernmental revenues.

### Major Funds

**General Fund** – is the County's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

### Special Revenue Funds

**Coronavirus Fiscal Recovery Fund** – accounts for the Coronavirus State and Local Fiscal Recovery Funds authorized under Subtitle M Section 9901 of the American Rescue Plan Act of 2021 to mitigate the fiscal effects stemming from the public health emergency with respect to the Coronavirus Disease 2019 (COVID-19).

**Detention Operations Fund** – was established under the authority of propositions 400 and 401, which were passed in the General Election of November 3, 1998. These propositions authorized a temporary 1/5 of one-cent sales tax to be used for the construction and operation of adult and juvenile detention facilities. On November 5, 2002, the voters approved the extension of the 1/5 of one-cent sales tax in the General Election to be used for jail facility operations. The extension begins in the month following the expiration of the original tax and may continue for not more than twenty years after the date the tax collection begins. The Detention Operations Fund accounts for the receipt of tax revenue, jail operations expenditures, and transfers to the Detention Capital Projects Fund and Detention Technology Capital Improvement Fund for construction of the adult and juvenile detention facilities and detention technology infrastructure.

**Opioid Abatement Fund** – accounts for monies received as part of the One Arizona Memorandum of Understanding Settlement Agreement. The monies received shall be used for opioid abatement strategies which include treatment, recovery, and prevention.

### Capital Projects Funds

**County Improvement Fund** – accounts for capital projects funded through the issuance of Certificates of Participation, Series 2018A, Certificates of Participation, Series 2024, and transfers from various County Funds.

**General Fund County Improvements Fund** – was established to fund current and future capital projects. Fund assets may be used to pay directly for capital projects or may be appropriated by the Board of Supervisors for debt service. None of the funds have been pledged for debt service, and fund assets may be transferred by the Board of Supervisors at any time for any other County purpose.

Net change in fund balances – total governmental funds (page 37) \$ (57,022,411)

Amounts reported for governmental activities in the Statement of Activities on page 31 are different because:

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation/amortization expense. This is the amount by which capital outlays exceeded depreciation in the current period. 356,910,538

The net effect of various miscellaneous transactions involving capital assets is an increase to net position. 9,030,965

Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds. 70,638,643

The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities. This amount is the net effect of these differences in the treatment of long-term debt and related items. 108,272,969

Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore, are not reported as expenditures in governmental funds. (3,449,136)

Internal service funds are used by management to charge the costs of equipment services, technology infrastructure, risk management, employee benefits, and the sheriff warehouse to individual funds. The net revenue of external activities of these funds is reported with governmental activities. 4,680,579

County pension and OPEB contributions are reported as expenditures in the governmental funds when made. However, they are reported as deferred outflows of resources in the Statement of Net Position because the reported net pension and OPEB liability is measured a year before the County's report date. Pension and OPEB expense, which is the change in the net liability adjusted for changes in deferred outflows and inflows of resources related to pensions, is reported in the Statement of Activities. 197,943,336

## NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Maricopa County's accounting policies conform to generally accepted accounting principles applicable to governmental units adopted by the Governmental Accounting Standards Board (GASB).

For the year ended June 30, 2024, the County implemented the provisions of GASB Statement No. 100, Accounting Changes and Error Corrections, which establishes accounting and financial reporting requirements for accounting changes and the correction of an error in previously issued financial statements. As a result, the County's financial statements and disclosures have been modified, as applicable, to reflect the implementation of this new standard.

### A. Reporting Entity

Maricopa County is a general-purpose local government that a separately elected board of supervisors governs. The accompanying financial statements present the activities of the County (the primary government) and its component units.

Component units are legally separate entities for which the County is considered to be financially accountable. Blended component units, although legally separate entities, are so intertwined with the County that they are in substance part of the County's operations. Therefore, data from these units is combined with data of the primary government. Discretely presented component units, on the other hand, are reported in a separate column in the government-wide financial statements to emphasize they are legally separate from the County. Each blended and discretely presented component unit discussed below has a June 30 year-end. Unless noted below, separate financial statements are not available for the component unit.

The reporting entity is comprised of the primary government, Maricopa County Flood Control District, Maricopa County Library District, Maricopa County Special Assessment Districts, Maricopa County Stadium District, Maricopa County Street Lighting Districts, Housing Authority of Maricopa County, and Industrial Development Authority of Maricopa County.

The blended component units are as follows:

#### Maricopa County Flood Control District

The Maricopa County Flood Control District is a legally separate, tax-levying entity pursuant to A.R.S. §48-3602 that provides flood control facilities and regulates floodplains and drainage to prevent flooding of property in Maricopa County. As the Maricopa County Board of Supervisors serves as the Board of Directors of the Flood Control District and has operational responsibility for the District, it is considered a blended component unit of the County.

#### Maricopa County Library District

The Maricopa County Library District is a legally separate, tax-levying entity pursuant to A.R.S. §48-3901 that provides and maintains library services for the residents of Maricopa County. As the Maricopa County Board of Supervisors serves as the Board of Directors of the Library District and has operational responsibility for the District, it is considered a blended component unit of the County.

#### Maricopa County Special Assessment Districts

The Maricopa County Special Assessment Districts are legally separate entities that provide improvements to various properties within the County. As the Maricopa County Board of Supervisors serves as the Board of Directors of the Special Assessment Districts and has operational responsibility over the District, they are considered a blended component unit of the County.

### Maricopa County Stadium District

The Maricopa County Stadium District is a legally separate entity pursuant to A.R.S. §48-4202 that provides regional leadership and fiscal resources to assure the presence of Major League Baseball in Maricopa County. As the Maricopa County Board of Supervisors serves as the Board of Directors of the Stadium District and has operational responsibility over the District, it is considered a blended component unit of the County. The Stadium District also issues separate financial statements. Complete financial statements for the Maricopa County Stadium District may be obtained at the entity's administrative office listed below:

Maricopa County Stadium District

### Maricopa County Street Lighting Districts

The Maricopa County Street Lighting Districts are legally separate entities that provide street lighting in areas of the County that are not under local city jurisdictions. As the Maricopa County Board of Supervisors serves as the Board of Directors of the Street Lighting Districts and has operational responsibilities over the Districts, they are considered a blended component unit of the County.

The discretely presented component units are as follows:

### Industrial Development Authority of Maricopa County

The Industrial Development Authority of Maricopa County (Authority) is a legally separate entity that was created to assist in the financing of commercial and industrial enterprises; safe, sanitary, and affordable housing; and healthcare facilities. The Authority fulfills its function through the issuance of tax exempt or taxable revenue bonds. The County Board of Supervisors appoints the Authority's Board of Directors. The Authority's operations are completely separate from the County and the County is not financially accountable for the Authority. All bonds issued by the Authority are special, limited obligations of the Authority, payable solely from revenues generated by the project being financed, and do not constitute debt of, a loan of, or credit by, the Authority. The Authority charges administration fees to bond applicants and uses such fees to cover its administration costs and to support its ongoing community and economic development in Arizona. The Authority is a special-purpose governmental entity engaged in business-type activities. Although the Authority is legally separate from the County, governmental accounting standards require the Authority to be reported as a discretely presented component unit of the County for financial reporting purposes as the County Board of Supervisors is able to impose its will on the Authority. Complete financial statements for the Industrial Development Authority of Maricopa County may be obtained at the entity's administrative office listed below:

Industrial Development Authority of Maricopa County

### Housing Authority of Maricopa County

The Housing Authority is a legally separate entity pursuant to A.R.S. §36-1404 that provides efficient and affordable rental housing to low-income households of Maricopa County. The Housing Authority's Board of Commissioners are appointed by the County Board of Supervisors and can be removed at any time which allows the County to impose its will on the Housing Authority. As the governing bodies of the County and Housing Authority are not substantively the same, the Housing Authority is reported as

a discretely presented component unit. The Housing Authority issues separate financial statements, which include seven discretely presented component units: Coffelt-Lamoreaux, L.L.C., Madison Heights Phase I, L.L.C., and Madison Heights Phase II, L.L.C. The River at Eastline, L.L.C., Coffelt Tenant, L.L.C., Heritage at Surprise, L.L.C, and GEM Heritage, L.L.C. These component units have a December 31 year end and are combined and reported with the Housing Authority on Maricopa County's financial statements.

## B. Basis of Presentation

The basic financial statements include both government-wide statements and fund financial statements. The government-wide statements focus on the County as a whole, while the fund financial statements focus on major funds. Each presentation provides valuable information that can be analyzed and compared between years and between governments to enhance the information's usefulness.

**Government-wide financial statements** – provide information about the primary government (the County) and its component units. The statements include a statement of net position and a statement of activities. These statements report the overall government's financial activities, except for fiduciary activities. They also distinguish between the County's governmental and business-type activities and between the County and its discretely presented component units. Governmental activities generally are financed through taxes and intergovernmental revenues. Business-type activities are financed in whole or in part by fees charged to external parties.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the County's governmental activities and segment of its business-type activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. The County does not allocate indirect expenses to programs or functions. Program revenues include:

- Charges to customers or applicants for goods, services, or privileges provided.
- Operating grants and contributions.
- Capital grants and contributions, including special assessments.

Revenues that are not classified as program revenues, including internally dedicated resources, unrestricted grant revenues, and all taxes the County levies or imposes, are reported as general revenues.

Generally, the effect of interfund activity has been eliminated from the government-wide financial statements to minimize the double counting of internal activities. However, charges for interfund services provided and used are not eliminated if doing so would distort the direct costs and program revenues reported by the departments concerned.

**Fund financial statements** – provide information about the County's funds, including fiduciary funds and blended component units. Separate statements are presented for the governmental, proprietary, and fiduciary fund categories. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise

## Notes to the Financial Statements

funds are aggregated and reported as nonmajor funds. Internal service and fiduciary funds are aggregated and reported by fund type.

Proprietary fund revenues and expenses are classified as either operating or nonoperating. Operating revenues and expenses generally result from transactions associated with the fund's principal activity. Accordingly, revenues, such as user charges and insurance premiums, in which each party receives and gives up essentially equal values, are reported as operating revenues. Other revenues, such as subsidies, result from transactions in which the parties do not exchange equal values and are considered nonoperating revenues along with investment earnings and revenues ancillary activities generate. Operating expenses include the cost of services, administrative expenses, and depreciation/amortization on capital assets. Other expenses, such as interest expense, are considered nonoperating expenses.

The County reports the following major governmental funds:

The General Fund – is the County's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Coronavirus Fiscal Recovery Fund – accounts for the Coronavirus State and Local Fiscal Recovery Funds authorized under Subtitle M of the American Rescue Plan Act of 2021 to mitigate the fiscal effects stemming from the public health emergency with respect to the Coronavirus Disease (COVID-19).

The Detention Operations Fund – was established under the authority of propositions 400 and 401, which were passed in the General Election of November 3, 1998. These propositions authorized a temporary 1/5 of one-cent sales tax to be used for the construction and operation of adult and juvenile detention facilities. On November 5, 2002, the voters approved the extension of the 1/5 of one-cent sales tax in the General Election to be used for jail facility operations. The extension begins in the month following the expiration of the original tax and may continue for not more than twenty years after the date the tax collection begins. The Detention Operations Fund accounts for the receipt of tax revenue, jail operations expenditures, and transfers to the Detention Capital Projects Fund and Detention Technology Capital Improvement Fund for construction of the adult and juvenile detention facilities and detention technology infrastructure.

The Opioid Abatement Fund – accounts for the monies received as part of the One Arizona Memorandum of Understanding (MOU) Settlement Agreement. The monies shall be used for opioid abatement strategies which include treatment, recovery and prevention.

The County Improvement Fund – accounts for capital projects funded through the issuance of Certificates of Participation, Series 2018A, Certificates of Participation, Series 2024, and transfers from various County Funds.

The General Fund County Improvements Fund – was established to fund current and future capital projects. Fund assets may be used to pay directly for capital projects or may be appropriated by the Board of Supervisors for debt service. Revenues in this fund consist mainly of transfers from the General Fund. None of the funds have been pledged for debt service, and fund assets may be transferred by the Board of Supervisors at any time for any other County purpose.

The County also reports the following fund types:

The internal service funds – account for automotive maintenance and service, information technology services, insurance services, self-insured employee benefits, and warehouse services provided to County departments or to other governments on a cost-reimbursement basis.

## Notes to the Financial Statements

(Continued)

---

The fiduciary funds - consists of a private-purpose trust fund, which accounts for assets the County's Public Fiduciary holds in trust for the benefit of various parties; and custodial funds, which account for other fiduciary activities, including the pooled assets the County Treasurer holds and invests on behalf of other governmental entities that are not held in trust and the County Treasurer's receipt and distribution of taxes for other governmental entities.

### C. Basis of Accounting

The government-wide, proprietary funds, and fiduciary funds financial statements are presented using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned, and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Property taxes are recognized as revenue in the year for which they are levied. Grants and donations are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Under the terms of grant agreements, the County funds certain programs by a combination of grants and general revenues. Therefore, when program expenses are incurred, there are both restricted and unrestricted net position resources available to finance the program. For these types of programs, the County applies grant resources to such programs before using general revenues. For all other programs, the County uses unrestricted revenues first.

Governmental funds in the fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when they become both measurable and available. The County considers all revenues reported in the governmental funds to be available if the revenues are collected within 60 days after year-end. The County's major revenue sources that are susceptible to accrual are property taxes, intergovernmental, charges for services, and investment income. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, landfill closure and postclosure care costs, pollution remediation obligations, claims and judgments, compensated absences and asset retirement obligations, which are recognized as expenditures to the extent they are due and payable. General capital asset acquisitions are reported as expenditures in governmental funds. Issuances of general long-term debt and acquisitions under lease contracts and subscription-based information technology arrangements are reported as other financing sources.

### D. Cash and Investments

For the statement of cash flows, the County's cash and cash equivalents are considered to be cash on hand, demand deposits, cash and investments held by the County Treasurer, and only those highly liquid investments with a maturity of three months or less when purchased.

School and fire district bonds that mature within 90 days of year-end are reported at amortized cost. All other investments are stated at fair value.

### E. Inventories

Inventories reported on the government-wide and the internal service funds financial statements are recorded as assets when purchased and expensed when consumed. The amounts shown on the statement of net position for government-wide and the internal service funds are valued at cost using first-in, first-out and the moving average methods, respectively.

The County accounts for its inventories in the governmental funds using the purchase method. Inventories of the governmental funds consist of expendable supplies held for consumption and are recorded as expenditures at the time of purchase. Amounts on hand at year-end are shown on the balance sheet as an asset for informational purposes only and as nonspendable fund balance to

indicate that they do not constitute “available spendable resources.” These inventories are stated at weighted-average cost.

## F. Property Tax Calendar

The County levies real property taxes and commercial personal property taxes on or before the third Monday in August that become due and payable in two equal installments. The first installment is due on the first day of October and becomes delinquent after the first business day of November. The second installment is due on the first day of March of the next year and becomes delinquent after the first business day of May.

During the year, the County also levies mobile home personal property taxes that are due the second Monday of the month following receipt of the tax notice and become delinquent 30 days later.

A lien assessed against real and personal property attaches on the first day of January preceding assessment and levy.

## G. Capital Assets

Capital assets, which include property, plant, equipment, infrastructure (e.g., roads, bridges, sidewalks, and similar items), and intangible right-to-use assets, are reported in the government-wide statements and the proprietary funds. The capitalization threshold for property, plant, equipment and infrastructure is \$5,000. The capitalization thresholds for intangible right-to-use leases and subscription assets are \$500,000 and \$1,000,000, respectively. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets’ lives are not capitalized.

Property, plant, and equipment are depreciated using the straight-line method over the following estimated useful lives:

<u>Type of Assets</u>	<u>Estimated Useful Life (In Years)</u>
Buildings and improvements	20 - 50
Infrastructure	25 - 50
Autos and trucks	3 - 10
Other equipment	3 - 20

All infrastructure assets are reported on the government-wide financial statements. Infrastructure maintained by the County Department of Transportation consists of roadways, bridges and related assets. These assets are not depreciated as they are reported using the modified approach. Under the modified approach, the County’s roadway and bridge systems are being preserved at a specified condition level established by the County. For information on the modified approach, see Required Supplementary Information – Modified Approach for Infrastructure Assets. The Flood Control District accounts for the County’s remaining infrastructure assets consisting of drainage systems, dams, flood channels and canals.

Intangible right-to-use lease assets are amortized over the shorter of the lease term or the useful life of the underlying asset, unless the lease contains a purchase option that the County is reasonably certain of being exercised—then the lease asset is amortized over the useful life of the underlying asset.

Intangible right-to use subscription assets are amortized over the shorter of the subscription term or the useful life of the underlying IT assets.

## H. Postemployment Benefits

For purposes of measuring the net pension and other postemployment benefits (OPEB) assets and liabilities, deferred outflows of resources and deferred inflows of resources related to pensions and OPEB, and pension and OPEB expense, information about the plans' fiduciary net position and additions to/deductions from the plans' fiduciary net position have been determined on the same basis as they are reported by the plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

## I. Fund Balance Classifications

The governmental funds' fund balances are reported separately within classifications based on a hierarchy of the constraints placed on those resources' use. The classifications are based on the relative strength of the constraints that control how the specific amounts can be spent. The classifications are nonspendable, restricted, and unrestricted, which includes committed, assigned, and unassigned fund balance classifications.

The nonspendable fund balance classification includes amounts that cannot be spent because they are either not in spendable form, such as inventories, or are legally or contractually required to be maintained intact. Restricted fund balances are those that have externally imposed restrictions on their usage by creditors (such as through debt covenants), grantors, contributors, or laws and regulations.

The unrestricted fund balance category is composed of committed, assigned, and unassigned resources. Committed fund balances are self-imposed limitations the County's Board of Supervisors approved, which is the highest level of decision-making authority within the County. Only the Board can remove or change the constraints placed on committed fund balances through formal Board action.

Assigned fund balances are resources constrained by the County's intent to be used for specific purposes, but that are neither restricted nor committed. Only the Board of Supervisors has authorization to assign fund balances.

The unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not reported in the other classifications. Also, deficits in fund balances of the other governmental funds are reported as unassigned.

The County's policy is to account for most restricted and committed revenue sources (subject to legal restriction, etc.) by segregating them in a separate fund; however, by its nature, the General Fund may have several different classifications of fund balance. Therefore, when expending General Fund fund balance, if an expenditure is incurred that can be paid from either restricted or unrestricted fund balances, it is the County's policy to use unrestricted fund balance first. For the disbursement of unrestricted fund balances, it is the County's policy to use unassigned amounts first, followed by assigned amounts, and lastly committed amounts.

## J. Investment Earnings

Investment earnings are composed of interest, dividends, and net changes in the fair value of applicable investments.

## K. Compensated Absences

Compensated absences payable consist of vacation leave and a calculated amount of sick leave employees earned based on services already rendered. Employees may accumulate, and roll-over from

## Notes to the Financial Statements

(Continued)

---

year-to-year, up to 240 or 320 hours (depending on employee classification) of vacation leave, but any vacation hours in excess of the maximum amount that are unused at calendar year-end convert to sick leave. Upon terminating employment, all unused vacation benefits are paid to employees. Accordingly, vacation benefits are accrued as a liability in the financial statements.

Employees may accumulate an unlimited number of sick leave hours. Generally, sick leave benefits provide for ordinary sick pay and are cumulative but employees forfeit them upon terminating employment. Because sick leave benefits do not vest with employees, a liability for sick leave benefits is not accrued in the financial statements. However, upon retirement, County employees with accumulated sick leave in excess of 1,000 hours are entitled to a \$10,000 nontaxable investment in a Post-Employment Health Plan (PEHP) established pursuant to Internal Revenue Code §501(c)(9). The obligations vested at June 30, 2024, under this policy are accrued as a liability.

Compensated absences are substantially paid within one year from fiscal year-end and, therefore, are reported as a current liability on the government-wide financial statements. A liability for these amounts is reported in the governmental funds' financial statements only if they have matured, for example, because of employee resignations and retirements by fiscal year-end.

### L. Leases and subscription-based information technology agreements

#### Leases

As lessee, the County recognizes lease liabilities with an initial, individual value of \$500,000 or more. The County uses its estimated incremental borrowing rate to measure lease liabilities unless it can readily determine the interest rate implicit in the lease. The County's estimated incremental borrowing rate is based on Municipal Market Data (MMD) AAA Curve yield rate index.

As lessor, the County recognizes lease receivable with an initial, individual value of \$100,000 or more. If there is no stated rate in the lease contract (or if the stated rate is not the rate the County charges the lessee) and the implicit rate cannot be determined, the County uses its own estimated incremental borrowing rate as the discount rate to measure lease receivables. The County's estimated incremental borrowing rate is calculated as described above.

#### Subscription-based information technology arrangements

The County recognizes subscription liabilities with an initial, individual value of \$1,000,000 or more. The County uses its estimated incremental borrowing rate to measure subscription liabilities unless it can readily determine the interest rate implicit in the arrangement. The County's estimated incremental borrowing rate is calculated as described above.

### M. Public-Private and Public-Public Partnerships

As a transferor of public-private and public-public (P3) arrangements, the County contracts with an operator to provide public services by conveying control for the right to use capital assets for a period of time in an exchange or exchange-like-transaction under the provisions of various user management agreements (UMAs).

The County recognizes P3 arrangement receivables with an initial, individual value of \$1,000,000 or more. If there is no stated rate in the P3 arrangement and the implicit rate cannot be determined, the County uses its own estimated incremental borrowing rate as the discount rate to measure the P3 receivables. The County's estimated incremental borrowing rate is based on Municipal Market Data (MMD) AAA Curve yield rate index.

### N. Other Disclosures

Pursuant to A.R.S. §35-391, the County must disclose in its annual financial report the amount of any rewards, discounts, incentives or other financial consideration resulting from credit card payments. The County earned \$627 thousand in credit card rebates during calendar year 2023.

### NOTE 2 – REPORTING CHANGES

Beginning in fiscal year 2024, the County established the Recorder Grants Fund (nonmajor special revenue fund) to account for all grant activity administered by the Recorder's Office.

### NOTE 3 – ACCOUNTING CHANGES

During fiscal year 2024, the Opioid Abatement Fund changed from a nonmajor to a major fund.

The governmental funds reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances is a reconciliation between net changes in fund balances – total governmental funds and changes in net position of governmental activities as reported in the government-wide Statement of Activities. The details of this reconciliation follow:

Net change in fund balances – total governmental funds	\$ (57,022,411)
--	-----------------

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.

Governmental funds capital outlay	492,326,117
Government-wide depreciation/amortization expense for the year ended June 30, 2024	(135,415,579)
	<u>356,910,538</u>

The net effect of various miscellaneous transactions involving capital assets is an increase to net position.

Donations of capital assets	37,365,726
Net value of disposed capital assets for the year ended June 30, 2024	(28,334,761)
	<u>9,030,965</u>

Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds.

Collections of grant revenues plus current-year revenues exceeding amount reported as earned during the year ended June 30, 2024	(10,869,358)
Property taxes revenue earned but not yet received during the year ended June 30, 2024	2,521,663
Settlement revenue earned but not yet received during the year ended June 30, 2024	63,340,413
Other unavailable revenue earned but not yet received during the year ended June 30, 2024	15,645,925
	<u>70,638,643</u>

The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is issued, whereas these amounts are amortized in the Statement of Activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.

Principal payments on certificates of participation	88,265,000
Principal payments on pledged revenue obligations	251,755,000
Principal payments on financed purchases	11,807,957
Principal payments on leases and subscription based IT arrangements	32,093,012
Proceeds from COPS	(190,450,000)
Proceeds from financed purchases	(5,894,810)
Proceeds from leases and subscription based IT arrangements	(78,991,752)
Accrued interest payable	(1,969,336)
Amortization of COPs premium	1,608,424
Amortization of deferred charges on debt refunding	49,474
	<u>108,272,969</u>

Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore, are not reported as expenditures in governmental funds.

Net increase in employee compensation payable	(2,929,839)
Decrease in inventories	(873,204)
Net decrease in closure and postclosure care costs	353,907
	<u>(3,449,136)</u>

Internal service funds are used by management to charge the costs of equipment services, technology infrastructure, reprographics, risk management, employee benefits, and the sheriff warehouse to individual funds. The net revenue of external activities of these funds is reported with governmental activities.

	<u>4,680,579</u>
--	------------------

County pension and OPEB contributions are reported as expenditures in the governmental funds when made. However, they are reported as deferred outflows of resources in the Statement of Net Position because the reported net pension and OPEB liability is measured a year before the County's report date. Pension and OPEB expense, which is the change in the net liability adjusted for changes in deferred outflows and inflows of resources related to pensions and OPEB, is reported in the Statement of Activities.

County pension and OPEB contributions	397,599,029
Pension and OPEB expense	(199,655,693)

## NOTE 6 – STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

At June 30, 2024, the following nonmajor governmental and proprietary funds reported deficits in fund balance or net position.

<u>FUND</u>	<u>DEFICIT</u>
<b>Governmental Funds:</b>	
Adult Probation Grants	\$ 2,028
Air Quality Grants	617,270
Clerk of the Court Grants	73,050
County Attorney Grants	815,869
Emergency Management	2,865,044
Human Services Grants	17,401,253
Library District Grants	25,001
Parks and Recreation Grants	280,604
Public Defender Grants	11,747
Public Health Grants	7,441,034
Recorder Grants	188,552
School Grants	1,913,396
Sheriff Grants	780,955
Superior Court Grants	153,298
Transportation Grants	17,576
<b>Proprietary Funds:</b>	
Equipment Services	\$ 1,588,653
Risk Management	47,577,953

The deficits in fund balances for Adult Probation Grants, Air Quality Grants, Clerk of the Court Grants, County Attorney Grants, Emergency Management, Human Services Grants, Library District Grants, Parks and Recreation Grants, Public Defender Grants, Public Health Grants, Recorder Grants, School Grants, Sheriff Grants, Superior Court Grants, and Transportation Grants Funds were attributed to the deferring of certain grant revenues. The County accrues grant revenue received within 60 days after year-end, as it is available and measurable. Revenues received after 60 days are considered not available and are therefore not accrued.

As of June 30, 2024, Equipment Services had deficit net position of \$1,588,653. This is primarily due to the reporting of noncurrent net pension liabilities as a result of GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*.

The Risk Management Fund's funding plan calls for the fiscal year ending cash balance to equal the next year's estimated claims and claims related expenses. As of June 30, 2024, the total net position deficit was \$47,577,953. This is primarily due to the Risk Management Fund not being funded for noncurrent accrued claim liabilities.

### NOTE 7 – DEPOSITS AND INVESTMENTS

Arizona Revised Statutes (A.R.S.) authorize the County to invest public monies in the State Treasurer's investment pool; obligations issued or guaranteed by the United States or any of the senior debt of its agencies, sponsored agencies, corporations, sponsored corporations, or instrumentalities; specified state and local government bonds, notes, and other evidences of indebtedness; interest-earning investments such as savings accounts, certificates of deposit, and repurchase agreements in eligible depositories; specified commercial paper issued by corporations organized and doing business in the United States; specified bonds, debentures, notes, and other evidences of indebtedness that are denominated in United States dollars; and certain open-end and closed-end mutual funds, including exchange traded funds. In addition, the County Treasurer may invest trust funds in certain fixed income securities of corporations doing business in the United States or District of Columbia.

#### Credit risk

Statutes have the following requirements for credit risk:

1. Commercial paper must be of prime quality and be rated within the top two ratings by a nationally recognized rating agency.
2. Specified bonds, debentures, notes, and other evidences of indebtedness that are denominated in United States dollars must be rated "A" or better at the time of purchase by at least two nationally recognized rating agencies.
3. Fixed income securities must carry 1 of the 2 highest ratings by Moody's investors service and Standard and Poor's rating service. If only 1 of these services rates the security, it must carry the highest rating of that service.

#### Custodial credit risk

Statutes require collateral for deposits at 102 percent of all deposits federal depository insurance does not cover.

#### Concentration of credit risk

Statutes do not include any requirements for concentration of credit risk.

#### Interest rate risk

Statutes require that public monies invested in securities and deposits have a maximum maturity of 5 years. However, the Stadium District is allowed by a separate statute to invest monies, not held for operations, in eligible investments with a maturity of greater than 5 years. The maximum maturity for investments in repurchase agreements is 180 days.

#### Foreign currency risk

Statutes do not allow foreign investments unless the investment is denominated in United States dollars.

**Deposits**—At June 30, 2024, the carrying amount of the County's deposits was \$232,534,172 and the bank balance was \$239,226,498. It is the County's investment policy to collateralize all deposits not covered by depository insurance in accordance with Statutes. At a minimum, the collateral is to be held by the pledging financial institution or its agent, but does not have to be held in the County's name.

**Investments**—The County had total investments of \$8,314,844,679 at June 30, 2024. The County categorized certain investments measured at fair value within the fair value hierarchy established by generally accepted accounting principles as follows:

Investments categorized as level 2 are valued using institutional bid evaluations based on Intercontinental Exchange (ICE) Data Services automated pricing models or Bloomberg. Corporate securities categorized as level 3 are valued using Bloomberg. Money market mutual funds are valued using a net asset value (NAV) of \$1.00 per share. Privately placed school bonds with maturities beyond 90 days categorized as level 3 are valued using information from similar investments. Privately placed school bonds with a maximum maturity of 90 days are measured at amortized cost.

The \$9,487,542 of other investments consists of Public Fiduciary investments and registered warrants purchased by the County Treasurer, totaling \$1,504,270 and \$7,983,272, respectively. The Public Fiduciary investments may consist of equities, mutual funds, U.S. Treasury securities, and other types of investments as directed by court order. The warrants purchased by the County Treasurer are for school district warrants that exceed their account balances, tax anticipation notes, and credit lines, as applicable. As these investment amounts are immaterial, no deposit or investment risk disclosures (credit risk, custodial credit risk, concentration of credit risk, and interest rate risk) will be reported for these investments.

**Credit risk** – It is the County's investment policy to preserve the principal value and the interest income of an investment. The County can invest in obligations issued or guaranteed by the United States or any of the senior debt of its agencies, sponsored agencies, corporations, or instrumentalities. The County can also invest in commercial paper and corporate bonds with ratings that meet the statutory requirements specified above. At June 30, 2024, credit risk for the County's investments was as follows:

Investment Type	Rating	Rating Agency	Amount
U. S. agency securities	Aaa	Moody's	\$ 54,797,000

The school and fire district bonds are issued by various districts that deposit their monies with the County Treasurer.

**Custodial credit risk** – For an investment, custodial credit risk is the risk that, in the event of the counterparty's failure, the County will not be able to recover the value of its investments or collateral securities that are in an outside party's possession. A.R.S. authorizes the County to enter into an agreement with the trust department of any bank authorized to do business in the state for safekeeping and handling of securities. The safekeeping and handling of investments are conducted through a bank trust department authorized to do business in this state. Securities received by the custodian are held in the County's name in book-entry form and the securities custodian is not the counterparty. At June 30, 2024, the County did not have investments exposed to custodial credit risk.

**Concentration of credit risk** – It is the County's investment policy to preserve the principal value of its investments. However, due to the limited investments allowed under statutes and the desire to preserve the principal value, the County's investments may have a concentration of credit risk of more than 5 percent of total investments in one issuer. Five percent or more of the County's investments at June 30, 2024, were in Federal Home Loan Banks (FHLB), Federal Farm Credit Banks (FFCB), and the U.S. Treasury. These investments were 24.3 percent, 16.0 percent, and 10.1 percent respectively, of the County's total investments.

**Interest rate risk** – It is the County's investment policy to hold investments to maturity, where practical, and avoid any loss on investments resulting from an early sale or retirement of an investment.

Additionally, securities should be invested for a shorter duration, where applicable. At June 30, 2024, the County had the following investments in debt securities.

Investment Type	Amount	Investment Maturities	
		Less than 1 Year	1 – 5 Years
U.S. Treasury securities	\$ 838,643,498	\$ 581,274,357	\$ 257,369,141

	\$8,305,357,138	\$5,141,126,386	\$3,164,230,752

**Foreign currency risk** – The County does not have a formal investment policy with respect to foreign currency risk because State statutes do not allow foreign investments unless it is denominated in United States dollars.

### NOTE 8 – CONDENSED FINANCIAL STATEMENTS OF COUNTY TREASURER’S INVESTMENT POOL

Arizona Revised Statutes require community colleges, school districts, and other local governments to deposit certain public monies with the County Treasurer. The Treasurer has a fiduciary responsibility to administer those and the County’s monies under his stewardship. The Treasurer invests, on a pool basis, all idle monies not specifically invested for a fund or program. In addition, the Treasurer determines the fair value of those pooled investments monthly and at June 30.

The County Treasurer’s investment pool is not registered with the Securities and Exchange Commission as an investment company and there is no regulatory oversight of its operations. The pool’s structure does not provide for shares, and the County has not provided or obtained any legally binding guarantees to support the value of the participants’ investments.

The Treasurer allocates interest earnings to each of the pool’s participants. However, for the County’s monies in the pool, the Board of Supervisors authorized \$23,635,115 of interest earned in certain other funds to be transferred to the General Fund.

The County’s deposits and investments are included in the County Treasurer’s investment pool, except for \$155,680 of cash on hand, \$17,322,500 mutual funds with trustee, and \$107,437,598 of other deposits and investments. The deposit and investment risks of the Treasurer’s investment pool are substantially the same as the County’s deposit and investment risks. See Note 7– Deposits and Investments for disclosure of the County’s deposit and investment risks.

The County leases land to third parties under the provisions of various lease agreements. During the fiscal year ended June 30, 2024, the County recognized total lease-related revenues of \$328,811 which consist of lease revenue of \$236,208 and interest revenue of \$92,603. The County contracts with operators to provide public services under various public-private arrangements. See Note 10 – Public-Private Partnerships for additional information.

The County is a party to opioid settlement agreements facilitated by the State of Arizona Attorney General against the pharmaceutical distributors who manufactured and marketed opioids. As settlements are finalized, the County records a receivable, net of uncollectible, for amounts anticipated to be received in the Opioid Abatement Fund. The County is expected to receive revenue over the next 18 years. During the fiscal year ended June 30, 2024, the County recorded settlement revenue related to the opioid settlements in the Opioid Abatement Fund of \$20,658,434. At June 30, 2024, the County has deferred inflows of \$156,475,872 related to the settlements receivable in the Opioid Abatement Fund.

### NOTE 10 – PUBLIC-PRIVATE PARTNERSHIPS

The County, as transferor, has entered into public-private partnership (P3) arrangements with operators to provide public services by conveying control for the right to use capital assets for a period of time in an exchange or exchange-like-transaction under the provisions of various user management agreements. The County recognizes P3 arrangement receivables with an initial, individual value of \$1,000,000 or more. If there is no stated rate in the P3 arrangement and the implicit rate cannot be determined, the County uses its own estimated incremental borrowing rate as the discount rate to measure the P3 receivables. The County's estimated incremental borrowing rate is based on Municipal Market Data (MMD) AAA Curve yield rate index. The operators pay the County either monthly or annually, as outlined below, and the County has recognized a P3 receivable and deferred inflow of resources related to these agreements. Total receivable and deferred inflows at June 30, 2024, related to these arrangements was \$9,944,224 and \$9,532,371, respectively. The County, as transferor, has entered into P3s with the following operators:

The County also has an unused revolving line of credit in the amount of \$35,000,000. See Note 17 – Line of Credit for more information.

### **Certificates of Participation**

On March 14, 2018, Maricopa County issued \$106,295,000 of Certificates of Participation, Series 2018A, to pay for the redevelopment of the County's former Madison Street Jail into office space and related parking facilities. The 2018A Certificates were executed and delivered under a trust agreement, dated June 1, 2015,

## Notes to the Financial Statements

and by a second supplement to the trust agreement, dated as of March 1, 2018. The certificates have interest rates ranging from 4.0 to 5.0 percent, payable semiannually on January 1 and July 1 each year, commencing on July 1, 2018, through 2024. These certificates are secured by the collateralization of the South Court Tower. The certificates are not callable prior to their scheduled maturity dates.

On June 12, 2024, Maricopa County issued \$190,450,000 of Certificates of Participation, Series 2024, direct placement, to pay for various capital projects. The two largest projects are the Downtown Office and Election Facility and the Southeast Juvenile Facility Remodel. The certificates have an interest rate of 4.2%, payable semiannually on August 1 and February 1 of each year, commencing on August 1, 2025, through 2026. These certificates are secured by the collateralization of the South Court Tower. The certificates are not callable prior to their scheduled maturity dates.

The County's outstanding Certificates of Participation, direct placement, and Certificates of Participation of \$190,450,000 and \$16,900,000, respectively, contain provisions that in an event of default, the trustee may at its option elect to terminate the lease, take possession of the leased property, and/or sell, convey, re-rent or re-let the leased property. The County's Certificates of Participation also contain a subjective acceleration clause that in an event of default allows the owners of at least 5% in outstanding principal amount to request the trustee to declare the certificates to be immediately due and payable.

The following certificates of participation were outstanding at June 30, 2024:

DESCRIPTION	AMOUNT OF ISSUE	INTEREST RATES	MATURITY DATES	OUTSTANDING AT JUNE 30, 2024
COP, Series 2018A	\$ 106,295,000	4.0 – 5.0%	7-1-24	\$ 16,900,000

### Leases

The County, as a lessee, has acquired the right-to-use building space, equipment, and vehicles under the provisions of various lease agreements. For all leases in excess of 12 months and that do not have mutual termination provisions, do not transfer ownership of the asset to the County during the lease, are exchange or exchange-like transactions, and meet the threshold where the present value of the minimum lease payments is \$500,000 or more, the County recognizes a right-to-use lease asset and a corresponding lease liability. The right-to-use lease asset is initially measured at the value of the lease liability, plus any payments made prior to lease commencement, plus direct cost incurred to place the asset into service, less any incentives received prior to commencement. For additional information refer to Note 12 - Capital Assets.

The total amount of lease assets and the related accumulated amortization are as follows:

Intangible right-to-use lease assets being amortized	\$ 56,525,627
Less: accumulated amortization	<u>16,644,167</u>
Carrying value	<u>\$ 39,881,460</u>

The following schedule details minimum lease payments to maturity for the County's leases payable at June 30, 2024:

Year ending June 30	Governmental Activities	
	Principal	Interest
2025	\$ 7,487,556	\$ 1,351,408

### Subscription-based information technology arrangements (SBITAs)

The County has obtained the right-to-use various Software as a Service (SaaS) cloud-based systems, enterprise resource planning software, payroll and human resources software, property appraisal software system, and other desktop and server software under the provisions of various subscription-based information technology arrangements (SBITA). For all IT software subscription arrangements in excess of 12 months and that do not have mutual termination provisions, does not transfer ownership of the asset to the County during the term of the subscription, are an exchange or exchange-like transactions, and meet the threshold where the present value of the minimum subscription payments is \$1,000,000 or more, the County recognizes a right-to-use SBITA asset and a corresponding SBITA liability. The right-to-use SBITA asset is initially measured as the initial subscription liability amount, plus payments associated with the SBITA contract made to the SBITA vendor before commencement of the subscription term, plus capitalizable initial implementation costs, less any incentives received prior to commencement. For additional information refer to Note 12 - Capital Assets.

The total amount of SBITA assets and the related accumulated amortization are as follows:

Intangible right-to-use SBITA assets being amortized	\$ 196,017,916
Less: accumulated amortization	<u>53,959,899</u>
Carrying value	<u>\$ 142,058,017</u>

### Legal Debt Margin

County indebtedness pertaining to general obligation bonds may not exceed six percent of the value of the County's taxable property ascertained by the last assessment. However, with voter approval, the County may become indebted for an amount not to exceed fifteen percent of such taxable property. At June 30, 2024, the allowable six and fifteen percent limits were \$5,493,429,508 and \$13,733,573,771, respectively. The County had no outstanding general obligation debt at June 30, 2024, and was therefore within the legal debt margin.

### Arbitrage Compliance

The County is in compliance with all Federal arbitrage regulations for tax-exempt debt securities. As of June 30, 2024, the County had no arbitrage liability.

### NOTE 16 – MUNICIPAL LANDFILL CLOSURE AND POSTCLOSURE CARE COSTS

The County has five landfills which are subject to closure and postclosure care requirements. Federal and State laws and regulations require the County to place a final cover on all its landfill sites when they stop accepting waste and to perform certain maintenance and monitoring functions at the sites for 30 years after closure. Although one landfill is exempt from these regulations, the County is performing postclosure monitoring of this site and has included the estimated costs in the closure and postclosure liability.

The County's last remaining landfill stopped accepting waste in May 2007 and the final cover was completed in October 2010. At June 30, 2024, the County updated the estimates required to pay for maintenance and monitoring at the County's five landfill sites, in accordance with generally accepted accounting principles. The County estimated these costs to be approximately \$5,890,078.

The County's estimate for closure and postclosure care requirements for the five landfills are subject to change due to inflation, changes in technology, changes in regulations, or results of an investigational study. All associated closure and postclosure costs will be paid from the General Fund. These amounts are based on what it would cost to perform all closure and postclosure care and remedial investigation costs in fiscal year 2024.

# Notes to the Financial Statements

(Continued)

According to Federal and State laws and regulations, the County must comply with the local government financial test requirements that ensure the County can meet the costs of landfill closure, postclosure, and corrective action when needed. The County is in compliance with these requirements.

## NOTE 17 – MUNICIPAL REVOLVING LINE OF CREDIT AND IRREVOCABLE STANDBY LETTER OF CREDIT

On July 1, 2023, the County maintained a \$35,000,000 municipal revolving line of credit with an interest rate equal to the bank’s most recently publicly announced prime rate, which had a maturity date of June 30, 2024. Outstanding principal and interest are due on June 30 of each year. During fiscal year 2024, the County had not borrowed against the line of credit. The municipal revolving line of credit was renewed to June 30, 2025.

On July 1, 2023, the County maintained a \$21,543,845 irrevocable standby letter of credit issued to the Industrial Commission of Arizona for unfunded workers’ compensation claims. On January 1, 2024, the letter of credit was increased to \$24,081,701. The letter of credit was reserved against the municipal revolving line of credit. During fiscal year 2024, the letter of credit had not been drawn upon. The irrevocable standby letter of credit was renewed to June 30, 2025, for \$24,081,701. However, an amendment will be issued on January 1, 2025, for the new liability amount.

## NOTE 18 – RISK MANAGEMENT

The Risk Management Fund (internal service fund) accounts for the financing of the insured risk of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees and natural disasters.

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The County carries commercial insurance for all such risks of loss, including workers’ compensation and employees’ health and accident insurance. Settled claims have not exceeded the commercial insurance coverage limits over the past 3 years.

Liabilities for unpaid claims are estimates determined by an independent actuary using the following actuarial methods: developed paid loss, developed reported incurred losses, developed case reserves, frequency times severity analysis, loss rate analysis, and the Bornhuetter-Ferguson method. Accrued actuarial liabilities are based on a discounted expected confidence level assuming a 3.0 percent annual rate of return on investments. Accrued actuarial liabilities at June 30, 2024, for each insurable area follow:

Auto liability	\$	1,822,000
General liability		20,778,000
Workers’ compensation		21,078,000

### NOTE 19 – POLLUTION REMEDIATION OBLIGATIONS

Maricopa County has estimated and reported a pollution remediation obligation in the Risk Management internal service fund financial statements for the current or potential detrimental effects of existing pollution. These obligations are categorized under environmental property damage and environmental liability in Note 18 – Risk Management. At June 30, 2024, the County reported \$10,856,696 of reported but unpaid claims, which is composed of the following pollution remediation obligations.

**Cave Creek Landfill** – The County entered a Consent Decree with Arizona Department of Environmental Quality (ADEQ) to remediate contaminated groundwater at County owned (closed) Cave Creek Landfill. A revised Remedial Action Plan was approved by ADEQ in November 2016. The County's reported pollution remediation liability is an estimate provided by a professional environmental consultant. The estimate consists of a groundwater remediation program, a soil vapor extraction system and continued mandated monitoring and reporting to ADEQ.

**Hassayampa Site** - County owned property adjacent to a (closed) municipal landfill is on the Superfund National Priorities List by the United States Environmental Protection Agency (EPA), pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA), 42 U.S.C. §9605(a)(8), due to suspected groundwater contamination. The County is responsible for 27.78% of the remediation costs. The County's reported pollution remediation liability is an estimate provided by a professional environmental consultant. The groundwater extraction and soil vapor extraction treatment systems will continue to be run until the groundwater and soil meet Federal cleanup levels.

**Queen Creek Landfill** – During mandated monitoring of the (closed) Queen Creek municipal landfill, levels of a potential pollutant were discovered at concentrations above the Aquifer Water Quality Standard (AWQS) of 5 micrograms per liter (µg/L). The County has engaged a professional environmental consultant to characterize the extent of the pollution and to determine the most effective remediation actions. The estimate includes costs for additional assessment and for infrastructure (such as additional monitoring wells) to provide sufficient data to allow an effective remediation plan to be developed.

The County pollution remediation liability is subject to change due to changes in the cost of goods and services, changes in remediation technology, or changes in laws and regulations governing the remediation effort. The County has no estimated recoveries at this time.

## NOTE 20 – PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS

The County contributes to the plans described below. The plans are component units of the State of Arizona.

At June 30, 2024, the County reported the following aggregate amounts related to pensions and other postemployment benefits (OPEB) for all plans to which it contributes:

Statement of Net Position and Statement of Activities	Governmental Activities
Net OPEB asset	\$ 50,560,580
Net pension liability	1,568,068,304
Net OPEB liability	662,626
Deferred outflows of resources related to pensions	536,551,213
Deferred outflows of resources related to OPEB	5,144,591
Deferred inflows of resources related to pensions	83,647,397
Deferred inflows of resources related to OPEB	18,261,756
Pension expense	209,513,996
OPEB expense (income)	(5,494,279)

The County's accrued payroll and employee benefits includes \$9,153,751 of outstanding pension and OPEB contribution amounts payable to all plans for the year ended June 30, 2024. Also, the County reported \$399,460,784 of pension and OPEB contributions as expenditures in the governmental funds related to all pension plans to which it contributes.

### A. Arizona State Retirement System

**Plan description**—County employees not covered by the other pension plans described below participate in the Arizona State Retirement System (ASRS). The ASRS administers a cost-sharing multiple-employer defined benefit pension plan, a cost-sharing multiple-employer defined benefit health insurance premium benefit (OPEB) plan, and a cost-sharing multiple-employer defined benefit long-term disability (OPEB) plan. The Arizona State Retirement System Board governs the ASRS according to the provisions of A.R.S. Title 38, Chapter 5, Articles 2 and 2.1. The ASRS issues a publicly available financial report that includes its financial statements and required supplementary information. The report is available on its website at [www.azasrs.gov](http://www.azasrs.gov).

**Benefits provided**—The ASRS provides retirement, health insurance premium supplement, long-term disability, and survivor benefits. State statute establishes benefit terms. Retirement benefits are calculated on the basis of age, average monthly compensation, and service credit as follows:

## Notes to the Financial Statements

(Continued)

	Retirement	
	Initial membership date:	
	Before July 1, 2011	On or after July 1, 2011
Years of service and age required to receive benefit	Sum of years and age equals 80 10 years, age 62 5 years, age 50* any years, age 65	30 years age 55 25 years, age 60 10 years, age 62 5 years, age 50* any years, age 65

Benefit percent per year of service	2.1% to 2.3%	2.1% to 2.3%

\*With actuarially reduced benefits.

Retirement benefits for members who joined the ASRS prior to September 13, 2013, are subject to automatic cost-of-living adjustments based on excess investment earnings. Members with a membership date on or after September 13, 2013, are not eligible for cost-of-living adjustments. Survivor benefits are payable upon a member's death. For retired members, the retirement benefit option chosen determines the survivor benefit. For all other members, the beneficiary is entitled to the member's account balance that includes the member's contributions and employer's contributions, plus interest earned.

Health insurance premium benefits are available to retired or disabled members with 5 years of credited service. The benefits are payable only with respect to allowable health insurance premiums for which the member is responsible. For members with 10 or more years of service, benefits range from \$100 per month to \$260 per month depending on the age of the member and dependents. For members with 5 to 9 years of service, the benefits are the same dollar amounts as above multiplied by a vesting fraction based on completed years of service.

Active members are eligible for a monthly long-term disability benefit equal to two-thirds of monthly earnings. Members receiving benefits continue to earn service credit up to their normal retirement dates. Members with long-term disability commencement dates after June 30, 1999, are limited to 30 years of service or the service on record as of the effective disability date if their service is greater than 30 years.

**Contributions**—In accordance with State statutes, annual actuarial valuations determine active member and employer contribution requirements. The combined active member and employer contribution rates are expected to finance the costs of benefits employees earn during the year, with an additional amount to finance any unfunded accrued liability. For the year ended June 30, 2024, statute required active ASRS members to contribute at the actuarially determined rate of 12.29 percent (12.14 percent for retirement and 0.15 percent for long-term disability) of the members' annual covered payroll for retirement, and statute required the County to contribute at the actuarially determined rate of 12.29 percent (12.03 percent for retirement, 0.11 percent for health insurance premium benefit, and 0.15 percent for long-term disability) of the active members' annual covered payroll. In addition, the County was required by statute to contribute at the actuarially determined rate of 9.99 percent (9.94 percent for retirement and 0.05 percent for long-term disability) of annual covered payroll of retired members who worked for the County in positions that an employee who contributes to the ASRS would typically fill. The County's contributions to the pension, health insurance premium benefit, and long-term disability plans for the year ended June 30, 2024, were \$85,268,126, \$772,064, and \$1,054,077.

## Notes to the Financial Statements

(Continued)

During fiscal year 2024, the County paid for ASRS pension and OPEB contributions as follows: 60.9% from the General Fund, 12.1% percent from major funds, and 27% percent from other funds.

**Liability**—At June 30, 2024, the County reported the following asset and liabilities for its proportionate share of the ASRS' net pension/OPEB asset or liability.

ASRS	Net pension/OPEB (asset) liability
Pension	813,999,493
Health insurance premium benefit	(27,532,025)
Long-term disability	662,626

The net asset and net liabilities were measured as of June 30, 2023. The total liability used to calculate the net asset or net liability was determined using update procedures to roll forward the total liability from an actuarial valuation as of June 30, 2022, to the measurement date of June 30, 2023.

The County's proportion of the net asset or net liability was based on the County's actual contributions to the plan relative to the total of all participating employers' contributions for the year ended June 30, 2023. The County's proportions measured as of June 30, 2023, and the change from its proportions measured as of June 30, 2022, were:

ASRS	Proportion June 30, 2023	Increase (decrease) from June 30, 2022
Pension	5.0%	0.1
Health insurance premium benefit	5.1%	0.2
Long-term disability	5.0%	0.1

**Expense**—For the year ended June 30, 2024, the County recognized the following pension and OPEB expense.

ASRS	Pension/OPEB expense
Pension	112,064,100
Health insurance premium benefit	(3,333,135)
Long-term disability	636,886

**Deferred outflows/inflows of resources**—At June 30, 2024, the County reported deferred outflows of resources and deferred inflows of resources related to pensions and OPEB from the following sources:

The amounts reported as deferred outflows of resources related to ASRS pensions and OPEB resulting from county contributions subsequent to the measurement date will be recognized as an increase of the net asset or a reduction of the net liability in the year ending June 30, 2025. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions and OPEB will be recognized as expenses as follows:

Year ending June 30	Pension	Health insurance premium benefit	Long-term disability
2025	(2,967,044)	(4,643,230)	(76,900)
2026	(25,806,312)	(5,099,743)	(186,289)
2027	31,037,888	(689,601)	22,941
2028	(3,578,842)	(702,313)	(183,201)
2029		55,939	(170,141)
Thereafter			(19,713)

**Actuarial assumptions**—The significant actuarial assumptions used to measure the total pension and OPEB liability are as follows:

### ASRS

Actuarial valuation date	June 30, 2022
Actuarial roll forward date	June 30, 2023
Actuarial cost method	Entry age normal
Investment rate of return	7.0%
Projected salary increases	2.9–8.4% for pensions/not applicable for OPEB
Inflation	2.3%
Permanent benefit increase	Included for pensions/not applicable for OPEB
Mortality rates	2017 SRA Scale U-MP for pensions and health insurance premium benefit
Recovery rates	2012 GLDT for long-term disability
Healthcare cost trend rate	Not applicable

Actuarial assumptions used in the June 30, 2022, valuation were based on the results of an actuarial experience study for the 5-year period ended June 30, 2020.

The long-term expected rate of return on ASRS plan investments was determined to be 7.0 percent using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Geometric Real Rate of Return
Public equity	44%	3.50%
Credit	23%	5.90%
Real estate	17%	5.90%
Private equity	10%	6.70%
Interest rate sensitive	6%	1.5%
Total	100%

**Discount rate**— At June 30, 2023, the discount rate used to measure the ASRS total pension/OPEB liability was 7.0 percent. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers will be made based on the actuarially determined rates based on the ASRS Board’s funding policy, which establishes the contractually required rate under Arizona statute. Based on those assumptions, the plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension/OPEB liability.

**Sensitivity of the County’s proportionate share of the ASRS net pension/OPEB (asset) liability to changes in the discount rate**—The following table presents the County’s proportionate share of the net pension/OPEB (asset) liability calculated using the discount rate of 7.0 percent, as well as what the County’s proportionate share of the net pension/OPEB (asset) liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.0 percent) or 1 percentage point higher (8.0 percent) than the current rate:

<b>ASRS</b>	1% Decrease (6.0%)	Current Discount Rate (7.0%)	1% Increase (8.0%)
<b>County’s proportionate share of the</b>			
Net pension liability	\$ 1,219,251,690	\$ 813,999,493	\$ 476,090,853
Net insurance premium benefit liability (asset)	(19,243,674)	(27,532,025)	(34,575,265)
Net long-term disability liability	968,966	662,626	361,256

**Plan fiduciary net position**—Detailed information about the pension plan’s fiduciary net position is available in the separately issued ASRS financial report.

### **B. Public Safety Personnel Retirement System and Corrections Officer Retirement Plan**

**Plan descriptions**—County sheriff employees and County attorney investigators who are regularly assigned hazardous duty participate in the Public Safety Personnel Retirement System (PSPRS) or employees who became members on or after July 1, 2017, may participate in the Public Safety Personnel Defined Contribution Retirement Plan (PSPDCRP). Previously, County park rangers participated in the PSPRS; however, the plan currently has no active members and only four inactive members. This plan has not had any active members since fiscal year 2006-07. The net pension liability for this plan of \$614,348 is included in the County’s total net pension liability; however, the details of this plan are not disclosed in the note below as there are no active members and it is not material. The PSPRS administers agent and cost-sharing multiple-employer defined benefit pension plans and agent and cost-sharing multiple-employer defined benefit health insurance premium benefit (OPEB) plans. A nine-member board known as the Board of Trustees and the participating local boards govern the PSPRS according to the provisions of A.R.S. Title 38, Chapter 5, Article 4. County sheriff employees who are PSPRS members participate in the agent plan. County attorney investigators who were PSPRS members before July 1, 2017, participate in the agent plan, and those who became PSPRS members on or after July 1, 2017, participate in the cost-sharing plan (PSPRS Tier 3 Risk Pool), which is not further disclosed because of its relative insignificance to the County’s financial statements.

County detention officers and Administrative Office of the Courts (AOC) probation, surveillance, and juvenile detention officers participate in the Corrections Officer Retirement Plan (CORP) or the Public Safety Personnel Defined Contribution Retirement Plan (PSPDCRP). The CORP administers an agent multiple-employer defined benefit pension plan and an agent multiple-employer defined benefit health insurance premium benefit (OPEB) plan for county detention officers (agent plans), which was closed to new members as of July 1, 2018, and a cost-sharing multiple-employer defined benefit pension and a cost-sharing multiple-employer defined benefit health insurance premium benefit (OPEB) plan for

AOC officers (cost-sharing plans). Employees who were CORP members before July 1, 2018, participate in CORP, and AOC probation and surveillance officers who became members on or after July 1, 2018, participate in CORP or PSPDCRP. Detentions officers and juvenile detention officers who became members on or after July 1, 2018, participate in PSPDCRP. The PSPRS Board of Trustees and the participating local boards govern CORP according to the provisions of A.R.S. Title 38, Chapter 5, Article 6.

The PSPRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPRS and CORP plans. The report is available on the PSPRS website at [www.psprs.com](http://www.psprs.com).

**Benefits provided**—The PSPRS and CORP provide retirement, health insurance premium supplement, disability, and survivor benefits. State statute establishes benefit terms. Retirement, disability, and survivor benefits are calculated on the basis of age, average monthly compensation, and service credit as follows:

<b>PSPRS</b>			
Initial membership date:			
	Before January 1, 2012	On or after January 1, 2012 and before July 1, 2017	On or after July 1, 2017

Final average salary is based on	Highest 36 consecutive months of last 20 years	Highest 60 consecutive months of last 20 years	Highest 60 consecutive months of last 15 years
<b>Benefit percent</b>			
Normal retirement	50% less 2.0% for each year of credited service less than 20 years OR plus 2.0% to 2.5% for each year of credited service over 20 years, not to exceed 80%		
Accidental disability retirement	1.5% to 2.5% per year of credited service, not to exceed 80%		
Catastrophic disability retirement	90% for the first 60 months then reduced to either 62.5% or normal retirement, whichever is greater		
Ordinary disability retirement	50% or normal retirement, whichever is greater		
Survivor Benefit	Normal retirement calculated with actual years of credited service or 20 years of credited service, whichever is greater, multiplied by years of credited service (not to exceed 20 years) divided by 20		
Retired members	80% to 100% of retired member's pension benefit		
Active members	80% to 100% of accidental disability retirement benefit or 100% of average monthly compensation if death was the result of injuries received on the job		

\*With actuarially reduced benefits.

Total and permanent disability retirement	50% or normal retirement if more than 25 years of credited service		
Ordinary disability retirement	2.5% per year of credited service		
<b>Survivor benefit</b>			
Retired members	80% of retired member's pension benefit		
Active members	40% of average monthly compensation or 100% of average monthly compensation if death was the result of injuries received on the job. If there is no surviving spouse or eligible children, the beneficiary is entitled to 2 times the member's contributions.		

\*With actuarially reduced benefits.

Retirement and survivor benefits are subject to automatic cost-of-living adjustments based on inflation. PSPRS also provides temporary disability benefits of 50 percent of the member's compensation for up to 12 months.

Health insurance premium benefits are available to retired or disabled members with 5 years of credited service. The benefits are payable only with respect to allowable health insurance premiums for which the member is responsible. Benefits range from \$100 per month to \$260 per month depending on the age of the member and dependents.

**Employees covered by benefit terms**—At June 30, 2024, the following employees were covered by the agent plans' benefit terms:

## Notes to the Financial Statements (Continued)

	PSPRS Sheriff		PSPRS Attorney Investigators		CORP Detention	
	Pension	Health	Pension	Health	Pension	Health
Inactive employees or beneficiaries currently receiving benefits	619	619	25	25	813	813

<b>Total</b>	<b>1,286</b>	<b>1,225</b>	<b>34</b>	<b>32</b>	<b>2,522</b>	<b>2,004</b>

**Contributions**—State statutes establish the pension contribution requirements for active PSPRS and CORP employees. In accordance with State statutes, annual actuarial valuations determine employer contribution requirements for PSPRS and CORP pension and health insurance premium benefits. The combined active member and employer contribution rates are expected to finance the costs of benefits employees earn during the year, with an additional amount to finance any unfunded accrued liability. Contributions rates for the year ended June 30, 2024, are indicated below. Rates are a percentage of active members' annual covered payroll.

	Active member-pension	County-pension	County-health insurance premium benefit
PSPRS Sheriff	7.65%-11.65%	71.44%-75.71%	0.0-0.11%
PSPRS Attorney Investigators	7.65-9.56	24.92-27.66	0.0-0.12
CORP Detention	8.41	33.75	0.0
CORP AOC	8.41 or 9.81	39.43 or 40.94	0.27 or 0.28

In addition, statute required the County to contribute at the actuarially determined rate indicated below of annual covered payroll of retired members who worked for the County in positions that an employee who contributes to the PSPRS or CORP would typically fill and employees participating in the PSPDCRP in addition to the County's required contributions to the PSPDCRP.

	Pension	Health insurance premium benefit
PSPRS Sheriff	62.59%	0.0%
PSPRS Attorney Investigators	16.23%	0.0%
CORP Detention	29.03%	0.0%
CORP AOC	36.31%	0.01%

The County's contributions to the plans for the year ended June 30, 2024, were:

	Pension	Health insurance premium benefit
PSPRS Sheriff	\$ 132,233,668	\$ 17,832
PSPRS Attorney Investigators	913,903	253
CORP Detention	130,173,747	0
CORP AOC	32,070,495	175,842

During fiscal year 2024, the County paid for PSPRS and CORP pension and OPEB contributions as follows: 57.43 percent from the General Fund, 40.64 percent from major funds, and 1.93 percent from other funds.

**Liability**—At June 30, 2024, the County reported the following assets and liabilities:

	Net pension (asset) liability	Net OPEB (asset) liability
PSPRS Sheriff	\$ 191,904,824	\$ (8,551,912)
PSPRS Attorney Investigators	2,061,661	(88,175)
CORP Detention	197,167,313	(10,393,628)
CORP AOC (County's proportionate share)	272,902,995	(255,589)

The net assets and net liabilities were measured as of June 30, 2023, and the total liability used to calculate the net asset or liability was determined by an actuarial valuation as of that date.

**Actuarial assumptions**—The significant actuarial assumptions used to measure the total pension and OPEB liability are as follows:

**PSPRS and CORP**

Actuarial valuation date	June 30, 2023
Actuarial cost method	Entry age normal
Investment rate of return	7.2%
Wage inflation	3.0 – 6.25% for pensions/not applicable for OPEB
Price inflation	2.5% for pensions/not applicable for OPEB
Cost-of-living adjustment	1.85% for pensions/not applicable for OPEB
Mortality rates	PubS-2010 tables
Healthcare cost trend rate	Not applicable

Actuarial assumptions used in the June 30, 2023, valuation were based on the results of an actuarial experience study for the 5-year period ended June 30, 2021.

The long-term expected rate of return on PSPRS and CORP plan investments was determined to be 7.2 percent using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of plan investment expenses and inflation) are developed for each major asset class. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

**PSPRS and CORP**

Asset class	Target allocation	Long-term expected geometric real rate of return
U.S. public equity	24%	3.98%
International public equity	16%	4.49%
Global private equity	20%	7.28%
Other assets (capital appreciation)	7%	4.49%
Core bonds	6%	1.90%
Private credit	20%	6.19%
Diversifying strategies	5%	3.68%
Cash - Mellon	2%	0.69%
Total	<u>100%</u>	

**Discount rates**—At June 30, 2024, the discount rate used to measure the PSPRS and CORP total pension/OPEB liabilities was 7.2 percent. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between the actuarially determined contribution rate and the member rate. Based on those assumptions, the plans' fiduciary net position was projected to be available to make all projected future benefit payments of current

plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension/OPEB liability.

**PSPDCRP plan**—County sheriff employees, County attorney investigators, County detention officers, and AOC probation, surveillance, and juvenile detention officers who are not members of PSPRS or CORP participate in the PSPDCRP. The PSPDCRP is a defined contribution pension plan. The PSPRS Board of Trustees governs the PSPDCRP according to the provisions of A.R.S. Title 38, Chapter 5, Article 4.1. Benefit terms, including contribution requirements, are established by State statute.

For the year ended June 30, 2024, active PSPDCRP members were required by statute to contribute at least 9 percent (County sheriff employees and County attorney investigators) or 5 percent (County detention officers, and AOC probation, surveillance, and juvenile detention officers) of the member's annual covered payroll, and the County was required by statute to contribute 9 percent or 5 percent, respectively, of active members' annual covered payroll to an individual employee account. Employees are immediately vested in their own contributions and the earnings on those contributions. Employees vest in a portion of the County's contributions each year as set forth in statute. The plan retains nonvested County contributions when forfeited because of employment terminations. For the year ended June 30, 2024, the County recognized pension expense of \$1,234,290.

### C. Elected Officials Retirement Plan

**Plan description**—Elected officials and judges participate in the Elected Officials Retirement Plan (EORP), ASRS or the Elected Officials Defined Contribution Retirement System (EODCRS). EORP administers a cost-sharing multiple-employer defined benefit pension plan and a cost-sharing multiple-employer defined benefit health insurance premium benefit (OPEB) plan for elected officials and judges who were members of the plan on December 31, 2013. The EORP pension and OPEB plans was closed to new members as of January 1, 2014. The PSPRS Board of Trustees governs the EORP

## Notes to the Financial Statements

according to the provisions of A.R.S. Title 38, Chapter 5, Article 3. The PSPRS issues a publicly available financial report that includes financial statements and required supplementary information for the EORP plan. The report is available on PSPRS's website at [www.psprs.com](http://www.psprs.com).

**Benefits provided**—The EORP provides retirement, health insurance premium supplement, disability, and survivor benefits. State statute establishes benefit terms. Retirement, disability, and survivor benefits are calculated on the basis of age, average yearly compensation, and service credit as follows:

	Initial membership date:	
	Before January 1, 2012	On or after January 1, 2012
<b>Retirement and disability</b>		
Years of service and age required to receive benefit	20 years, any age 10 years, age 62 5 years, age 65 5 years, any age* any years and age if disabled	10 years, age 62 5 years, age 65 any years and age if disabled
Final average salary is based on	Highest 36 consecutive months of last 10 years	Highest 60 consecutive months of last 10 years
<b>Benefit percent</b>		
Normal Retirement	4% per year of service, not to exceed 80%	3% per year of service, not to exceed 75%
Disability Retirement	80% with 10 or more years of service 40% with 5 to 10 years of service 20% with less than 5 years of service	75% with 10 or more years of service 37.5% with 5 to 10 years of service 18.75% with less than 5 years of service
<b>Survivor benefit</b>		
Retired Members	75% of retired member's benefit	50% of retired member's benefit
Active Members and other inactive members	75% of disability retirement benefit	50% of disability retirement benefit

\* With reduced benefits of 0.25% for each month early retirement precedes the member's normal retirement age, with a maximum reduction of 30%.

Retirement and survivor benefits are subject to automatic cost-of-living adjustments based on inflation. In addition, the Legislature may enact permanent one-time benefit increases after a Joint Legislative Budget Committee analysis of the increase's effects on the plan.

Health insurance premium benefits are available to retired or disabled members with 5 years of credited service. The benefits are payable only with respect to allowable health insurance premiums for which the member is responsible. For members with 8 or more years of service, benefits range from \$100 per month to \$260 per month depending on the age of the member and dependents. For members with 5 to 7 years of service, the benefits are the same dollar amounts as above multiplied by a vesting fraction based on completed years of service.

**Contributions**—State statutes establish active member and employer contribution requirements. Statute also appropriates \$5 million annually through fiscal year 2043 for the EORP from the State of Arizona to supplement the normal cost plus an amount to amortize the unfunded accrued liability and designates a portion of certain court fees for the EORP. For the year ended June 30, 2024, statute

## Notes to the Financial Statements

(Continued)

required active EORP members to contribute 7 or 13 percent of the members' annual covered payroll and the County to contribute at the actuarially determined rate of 76.51 percent of all active EORP members' annual covered payroll. Also, statute required the County to contribute 64.37 percent to EORP of the annual covered payroll of elected officials and judges who were ASRS members and 70.51 percent to EORP of the annual covered payroll of elected officials and judges who were EODCRS members, in addition to the County's required contributions to ASRS and EODCRS for these elected officials and judges. In addition, statute required the County to contribute 58.57 percent of annual covered payroll of retired members who worked for the County in positions that an employee who contributes to the EORP would typically fill. The County's contributions to the pension plan for the year ended June 30, 2024, were \$16,780,777.

During fiscal year 2024, the County paid for EORP pension contributions as follows: 99.38 percent from the General Fund and 0.62 percent from other nonmajor funds.

**Liability**—At June 30, 2024, the County reported a liability for its proportionate share of the EORP's net pension liability that reflected a reduction for the County's proportionate share of the State's appropriation for EORP. The amount the County recognized as its proportionate share of the net pension liability, the related state support, and the total portion of the net pension liability that was associated with the County were as follows:

County's proportionate share of the EORP net pension liability	\$ 89,417,670
State's proportionate share of the EORP net pension liability associated with the County	99,973,536
Total	<u>\$ 189,391,206</u>

The County also reported an asset of \$3,686,082 for its proportionate share of EORP's net OPEB asset.

The net asset and net pension liability was measured as of June 30, 2023, and the total liability used to calculate the net asset or net liability was determined by an actuarial valuation as of that date.

The County's proportion of the net pension liability was based on the County's required contributions to the plan relative to the total of all participating employers' required contributions for the year ended June 30, 2023. The County's proportion of the net OPEB asset was based on the County's present value of benefits relative to the total of all participating employers' present value of the benefits for the year ended June 30, 2023. The County's proportion measured as of June 30, 2023, and the change from its proportions measured as of June 30, 2022, were:

EORP	Proportion June 30, 2023	Increase (decrease) from June 30, 2022
Pension	14.3%	(11.8)
Health insurance premium benefit	27.5%	0.3

**Expense**—For the year ended June 30, 2024, the County recognized pension and OPEB expenses for EORP of \$(17,448,224) and (\$167,602), respectively, and revenue of \$15,810,490 for the County's proportionate share of the State's appropriation to EORP and the designated court fees.

**Deferred outflows/inflows of resources**—At June 30, 2024, the County reported deferred outflows of resources and deferred inflows of resources related to pensions and OPEB from the following sources:

## Notes to the Financial Statements (Continued)

EORP	Pension		Health insurance premium benefit	
	Deferred outflows of resources	Deferred inflows of resources	Deferred outflows of resources	Deferred inflows of resources
Differences between expected and actual experience	\$ 375,054	\$	\$ 47,593	\$

Total	<u>\$ 17,155,831</u>	<u>\$ 39,489,121</u>	<u>\$ 113,110</u>	<u>\$ 19,336</u>

The amounts reported as deferred outflows of resources related to EORP pensions and OPEB resulting from County contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2025. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to EORP pensions and OPEB will be recognized in pension expense as follows:

Year ending June 30	Pensions	Health insurance premium benefit
2025	\$ (39,560,671)	19,672
2026	(489,879)	(74,835)
2027	1,016,385	160,323
2028	(79,902)	(11,386)

**Actuarial assumptions**—The significant actuarial assumptions used to measure the total pension/OPEB liability are as follows:

EORP	
Actuarial valuation date	June 30, 2023
Actuarial cost method	Entry age normal
Investment rate of return	7.2%
Wage inflation	3.25% /not applicable for OPEB
Price inflation	2.5% /not applicable for OPEB
Cost-of-living adjustment	1.85% /not applicable for OPEB
Mortality rates	PubG-2010 tables
Healthcare cost trend rate	Not applicable

Actuarial assumptions used in the June 30, 2023, valuation were based on the results of an actuarial experience study for the 5-year period ended June 30, 2021.

The long-term expected rate of return on EORP plan investments was determined to be 7.2 percent using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expenses and inflation) are developed for each major asset class. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

## Notes to the Financial Statements

(Continued)

Asset class	Target allocation	Long-term geometric real rate of return
U.S. public equity	24%	3.98%
International public equity	16%	4.49%
Global private equity	20%	7.28%
Other assets (capital appreciation)	7%	4.49%
Core bonds	6%	1.90%
Private credit	20%	6.19%
Diversifying strategies	5%	3.68%
Cash - Mellon	2%	0.69%
Total	100%	

**Discount rate**—At June 30, 2023, the discount rate used to measure the EORP total pension liability and total OPEB liability was 7.2 percent. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate, employer contributions will be made at the actuarially determined rates, and State contributions will be made as currently required by statute. Based on those assumptions, the plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension/OPEB liability.

**Sensitivity of the County’s proportionate share of the EORP net pension/OPEB (asset) liability to changes in the discount rate**—The following table presents the County’s proportionate share of the net pension/OPEB (asset) liability calculated using the discount rate of 7.2 percent, as well as what the County’s proportionate share of the net pension/OPEB (asset) liability would be if it was calculated using a discount rate that is 1 percentage point lower (6.2 percent) or 1 percentage point higher (8.2 percent) than the current rate:

EORP	1% Decrease (6.2%)	Current discount rate (7.2%)	1% Increase (8.2%)
County’s proportionate share of the net pension liability	\$ 103,301,126	\$ 89,417,670	\$ 77,514,015
County’s proportionate share of the net OPEB (asset)	\$ (3,391,128)	\$ (3,686,082)	\$ (3,943,631)

**Plan fiduciary net position**—Detailed information about the plan’s fiduciary net position is available in the separately issued EORP financial report.

**EODCRS plan**—Elected officials and judges who are not members of EORP or ASRS participate in the EODCRS. The EODCRS is a defined contribution pension plan. The PSPRS Board of Trustees governs the EODCRS according to the provisions of A.R.S Title 38, Chapter 5, Articles 3.1 and 3.2. Benefit terms, including contribution requirements, are established by State statute.

For the year ended June 30, 2024, active EODCRS members were required by statute to contribute 8 percent of the members’ annual covered payroll, and the County was required by statute to contribute 6 percent of active members’ annual covered payroll to an individual employee account. Employees are immediately vested in their own contributions and the County’s contributions to the individual employee account and the earnings on those contributions. For the year ended June 30, 2024, the County recognized pension expense of \$344,681.

### NOTE 21 – INTERFUND BALANCES AND ACTIVITY

Interfund receivables and payables – interfund balances at June 30, 2024, were as follows:

Payable from	Payable To	
	General Fund	Total Due To
Nonmajor Governmental Funds	\$15,758,926	\$15,758,926
Internal Service Funds	\$525,223	525,223
Total Due From	<u>\$16,284,149</u>	<u>\$16,284,149</u>

All interfund receivables and payables represent cash deficits that were the result of timing differences from grant revenues received in the subsequent year and cash transfers that had not occurred at June 30, 2024.

Interfund transfers – interfund transfers for the year ended June 30, 2024, were as follows:

Transfers Out	Transfers In					Total Transfers Out
	General Fund	Detention Operations Fund	General Fund County Improvements Fund	Nonmajor Governmental Funds	Internal Service Funds	
General Fund	\$	\$214,568,824	\$374,157,202	\$58,369,152	\$	\$647,095,178

All interfund transfers are budgeted and are used to move revenues from the fund that collects them to the fund that expends them. The principal purpose of interfund transfers was to provide funds for the statutorily required Maintenance of Effort payments from the General Fund to the Detention Operations Fund, to cover debt service payments, and for capital projects.

The interfund receivables, payables, and transfers by fund are as follows:

### NOTE 22 – SUBSEQUENT EVENT

On August 21, 2024, the County issued \$180,000,000 in Pledged Revenue Obligations, Taxable Series 2024, direct placement, to pay for pension related costs and obligations. The 2024 Pledged Revenue Obligations have an interest rate of 4.6%, payable semiannually on August 1 and February 1 of each year, commencing on August 1, 2025, through 2026. The County has pledged the County's Excise Tax, State Shared Sales Tax, Vehicle License Tax, and PILT Revenues to repay \$180,000,000 in pledged revenue obligations. The obligations are not callable prior to their scheduled maturity dates.

### NOTE 23 – DISCRETELY PRESENTED COMPONENT UNIT DISCLOSURES

The significant accounting disclosures for Maricopa County's discretely presented component units, the Housing Authority of Maricopa County (HAMC) and Industrial Development Authority of Maricopa County (IDA), are presented below. For additional information on HAMC and IDA, see Note 1 – Summary of Significant Accounting Policies, Section A – Reporting Entity.

#### A. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The County's component units' financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America applicable to governmental units adopted by the Governmental Accounting Standards Board (GASB).

The statement of net position and the statement of activities are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

#### B. Deposits and Investments

##### IDA

Investments in securities are stated at fair value.

Deposits and investments at June 30, 2024, consist of the following:

Deposits:	
Cash in bank	\$ 1,238,830
Investments:	
Money market	16,157,625
Federal Home Loan Banks	
Federal National Mortgage Association	27,117
Government National Mortgage Association	10,901
Arizona Community Foundation	2,451,881
Down Payment Assistance Investment Notes	3,369
Total deposits and investments:	<u>\$ 19,889,723</u>

##### Deposits

Custodial credit risk is the risk that in the event of a bank failure, the IDA's deposits may not be returned to it. The IDA places its cash with High-credit quality financial institutions. At various times throughout the year and at year-end, the IDA's cash balances exceed the federally insured limits. At June 30, 2024, \$16,894,455, was uninsured and uncollateralized. Management believes there are no unusual risks associated with current depository institutions. The IDA has no policy concerning exposure to custodial credit risk.

## Notes to the Financial Statements

### Investments

Interest Rate Risk – The IDA’s investment policy concerning exposure to interest rate risk is acceptance of no return lower than the market return normally associated with any specific asset class into which the IDA invests.

Estimated maturities of the IDA’s investments consisted of the following at June 30, 2024:

Investment Type	Within six months	Six months to one year	One to three years	More than three years	Totals
Federal National Mortgage Association	\$	\$	\$	\$ 27,117	\$ 27,117
Government National Mortgage Association				10,901	10,901
Arizona Community Foundation	2,451,881				2,451,881
Down Payment Assistance Investment Notes	1,385	1,984			3,369
Totals:	\$ 2,453,266	\$ 1,984	\$	\$ 38,018	\$ 2,493,268

Concentration Risk – The IDA’s investment policy concerning exposure to concentration risk is to diversify investments so as to minimize the risk of large losses, unless under certain circumstances it is clearly prudent not to do so. More than 5% of IDA’s investments at June 30, 2024 were in the Arizona Community Foundation. These investments were 98.3% of the IDA’s total investments.

Credit Risk – The IDA’s investment policy concerning exposure to credit risk is acceptance of no risk in excess of market risks normally associated with any specific asset class into which the IDA invests. At June 30, 2024, credit risk for the Authority’s investments was as follows:

Investment type	Moody's Rating	Standard and Poor's Rating
Federal Home Loan Banks	Aaa	AA+
Federal National Mortgage Association	Aaa	AA+
Government National Mortgage Association	Aaa	AA+

Custodial Credit Risk – The IDA has no policy concerning exposure to custodial credit risk. All investments are reported at fair value. Investments are uninsured and unregistered and held by investment brokers in the IDA’s name.

The IDA had an unrealized gain in the fair value of investments of \$267,981 and no realized gains or losses for the year ended June 30, 2024. The unrealized and realized gains/losses are included in investment earnings in nonoperating revenues in the accompanying statement of revenues, expenses and changes in fund net position.

Fair Value of Investments – In determining fair value, the IDA uses various valuation approaches within the fair value measurement framework. Fair value measurements are determined based on the assumptions that market participants would use in pricing an asset or liability.

The fair value measurement framework establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available.

The fair value measurements define levels within the hierarchy based on the reliability of inputs as follows:

## Notes to the Financial Statements

(Continued)

Level 1 – Valuations based on unadjusted quoted prices for identical assets or liabilities in active markets;

Level 2 – Valuations based on quoted prices for similar assets or liabilities or identical assets or liabilities in less active markets, such as dealer or broker markets; and

Level 3 – Valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable, such as pricing models, discounted cash flow models and similar techniques not based on market, exchange, dealer or broker-traded transactions.

The IDA's investments at June 30, 2024, categorized within the fair value hierarchy detailed above were as follows:

	Fair Value Measurements Using			
	Total	Level 1	Level 2	Level 3
Investments by fair value level				
Federal National Mortgage Association	\$ 27,117	\$	\$ 27,117	\$
Government National Mortgage Association	10,901		10,901	
Arizona Community Foundation	2,451,881			2,451,881
Total investments by fair value level:	<u>\$ 2,489,899</u>	<u>\$</u>	<u>\$ 38,018</u>	<u>\$ 2,451,881</u>
External investments measured at net asset value				
Down Payment Assistance Investment Notes	\$ 3,369			
Totals investments measured at fair value:	<u>\$ 2,493,268</u>			

### C. Capital Assets

The following is a summary of the changes in capital assets for the year ended June 30, 2024 for HAMC:

## Required Supplementary Information

### Notes to Budgetary Comparison Schedules

June 30, 2024

---

#### NOTE 1 – BUDGETING AND BUDGETARY CONTROL

Arizona Revised Statutes (A.R.S.) require the County to prepare and adopt a balanced budget annually for each governmental fund. The Board of Supervisors must approve such operating budgets on or before the third Monday in July to allow sufficient time for the legal announcements and hearings required for the adoption of the property tax levy on the third Monday in August. A.R.S. prohibits expenditures or liabilities in excess of the amounts budgeted.

Essentially, the County prepares its budget on the same modified accrual basis of accounting used to record actual revenues and expenditures. However, in the General Fund, Coronavirus Fiscal Recovery Fund, Detention Operations Fund, and Opioid Abatement Fund the County records capital outlay and debt service expenditures by the expenditure function and department.

The County has adopted budgets in accordance with the A.R.S. requirements for the General, Special Revenue, Debt Service, and Capital Projects Funds, with the exception of the following funds: Accommodation Schools, Children’s Issues Education, Emancipation Administrative Costs, Justice Courts Photo Enforcement, and Street Lighting District funds. In accordance with GASB Statement No. 34, budgetary comparison schedules should be presented in the required supplementary information for only the General Fund and for each major Special Revenue Fund. Formal budget integration is not employed for the Internal Service Funds because effective budgetary control is alternatively achieved through capability of cost recovery. Budgeted amounts are reported as originally adopted and as amended by authorization from the Board of Supervisors. All budget adjustments with the exception of the Judicial Branch, which includes Adult Probation, Justice Courts, Juvenile Probation and Superior Court, require authorization from the Board of Supervisors. The Judicial Branch appropriations can be moved between the Judicial Branch departments by fund, as requested and approved by the Presiding Judge, without further Board approval. Budgeted appropriations include expenditures and transfers out. Expenditures and transfers out may not legally exceed appropriations at the department level. With the exception of the General Fund, Coronavirus Fiscal Recovery Fund, and the Detention Operations Fund, each fund includes only one department.

#### NOTE 2 – Budgetary Basis of Accounting

The County’s budget is prepared on a basis consistent with generally accepted accounting principles, except for the following unbudgeted item:

- Present value of lease payments
- Present value of subscription payments

The following schedule reconciles the excess (deficiency) of revenues over expenditures from the statement of revenues, expenditures, and changes in fund balances to the budgetary comparison schedules:

	General Fund	Coronavirus Fiscal Recovery
Excess of revenues over expenditures from the statement of revenues, expenditures, and changes in fund balances	\$498,631,710	\$25,175,690
Present value of lease payments	13,454,768	
Present value of subscription payments	52,031,434	1,049,310
Excess of revenues over expenditure from the budgetary comparison schedules	\$564,117,912	\$26,225,000

**NOTE 1 – ACTUARIALLY DETERMINED CONTRIBUTION RATES**

Actuarial determined contribution rates for PSPRS and CORP are calculated as of June 30 2 years prior to the end of the fiscal year in which contributions are made. The actuarial methods and assumptions used to establish the contribution requirements are as follows:

Actuarial cost method	Entry age normal
Amortization method	PSPRS members with initial membership date before July 1, 2017, and CORP members with initial membership date before July 1, 2018: Level percent-of-pay, closed PSPRS members with initial membership on or after July 1, 2017: Level dollar closed
Remaining amortization period as of the 2022 actuarial valuation	PSPRS members with initial membership date before July 1, 2017, and CORP members with initial membership date before July 1, 2018: 15 years PSPRS members with initial membership on or after July 1, 2017: 10 years
Asset valuation method	PSPRS members with initial membership date before July 1, 2017, and CORP members with initial membership date before July 1, 2018: 7-year smoothed market value; 80%/120% market corridor PSPRS members with initial membership on or after July 1, 2017: 5-year smoothed market value; 80%/120% market corridor
Actuarial assumptions: Investment rate of return	PSPRS members with initial membership date before July 1, 2017, and CORP members with initial membership date before July 1, 2018: In the 2022 actuarial valuation, the investment rate of return was decreased from 7.3% to 7.2%. In the 2019 actuarial valuation, the investment rate of return was decreased from 7.4% to 7.3%. In the 2017 actuarial valuation, the investment rate of return was decreased from 7.5% to 7.4%. In the 2016 actuarial valuation, the investment rate of return was decreased from 7.85% to 7.5%. In the 2013 actuarial valuation, the investment rate of return was decreased from 8.0% to 7.85%.
Projected salary increases	In the 2017 actuarial valuation, projected salary increases were decreased from 4.0%–8.0% to 3.5%–7.5% for PSPRS and from 4.0%–7.25% to 3.5%–6.5% for CORP. In the 2014 actuarial valuation, projected salary increases were decreased from 4.5%–8.5% to 4.0%–8.0% for PSPRS and from 4.5%–7.75% to 4.0%–7.25% for CORP. In the 2013 actuarial valuation, projected salary increases were decreased from 5.0%–9.0% to 4.5%–8.5% for PSPRS and from 5.0%–8.25% to 4.5%–7.75% for CORP.
Wage growth	In the 2022 actuarial valuation, wage growth was changed from 3.5% to a range of 3.0 – 6.25% for PSPRS and CORP. In the 2017 actuarial valuation, wage growth was decreased from 4% to 3.5% for PSPRS and CORP. In the 2014 actuarial valuation, wage growth was decreased from 4.5% to 4.0% for PSPRS and CORP. In the 2013 actuarial valuation, wage growth was decreased from 5.0% to 4.5% for PSPRS and CORP.
Retirement age	Experience-based table of rates that is specific to the type of eligibility condition. Last updated for the 2012 valuation pursuant to an experience study of the period July 1, 2006–June 30, 2011.
Mortality	In the 2019 actuarial valuation, changed to PubS-2010 tables. In the 2017 actuarial valuation, changed to RP-2014 tables, with 75% of MP-2016 fully generational projection scales. RP-2000 mortality table (adjusted by 105% for both males and females)

**NOTE 2 – FACTORS THAT AFFECT TRENDS**

Arizona courts have ruled that provisions of a 2011 law that changed the mechanism for funding permanent pension benefit increases and increased employee pension contribution rates were unconstitutional or a breach of contract because those provisions apply to individuals who were members as of the law's effective date. As a result, the PSPRS, CORP, CORP-AOC, and EORP changed benefit terms to reflect the prior mechanism for funding permanent benefit increases for those members and revised actuarial assumptions to explicitly value future permanent benefit increases. PSPRS and EORP also reduced those members' employee contribution rates. These changes are reflected in the plans' pension liabilities for fiscal year 2015 (measurement date 2014) for members who were retired as of the law's effective date and fiscal year 2018 (measurement date 2017) for members who retired or will retire after the law's effective date. These changes also increased the PSPRS-, CORP-, and CORP-AOC required pension contributions beginning in fiscal year 2016 for members who were retired as of the law's effective date. These changes increased the PSPRS-, CORP-, and CORP-AOC required contributions beginning in fiscal year 2019 for members who retired or will retire after the law's effective date. EORP-required contributions are not based on actuarial valuations, and therefore, these changes did not affect them. Also, the County refunded excess employee contributions to PSPRS and EORP members. PSPRS and EORP allowed the County to reduce its actual employer contributions for the refund amounts. As a result, the County's pension contributions were less than the actuarially or statutorily determined contributions for 2018.

The fiscal year 2019 (measurement date 2018) pension liabilities for EORP and CORP reflect the replacement of the permanent benefit increase (PBI) for retirees based on investment returns with a cost of living adjustment based on inflation. Also, the EORP liability and required pension contributions for fiscal year 2019 reflect a statutory change that requires the employer contribution rate to be actuarially determined. This change increased the discount rate used to calculate the liability thereby reducing the total pension liability.

The condition of road pavement is measured and managed using the Maricopa County Department of Transportation (MCDOT) asset management software, Cartegraph Asset Management, which is based on weighted averages of pavement surface distress factors. The Cartegraph Asset Management system uses a measurement scale to evaluate the Overall Condition Index (OCI) ranging from zero for a failed pavement to 100 for a pavement in perfect condition. The OCI is used to classify road condition as Very Good (90-100), Good (75-90), Fair (60-75), Poor (40-60) and Very Poor (<40). As of FY 2023, it is the County's policy, to maintain at least 75% of the centerline miles with an OCI greater than or equal to 60 and no more than 5% of centerline miles with OCI less than 40. In FY 2022, new inspection protocols were implemented that provide a more comprehensive and robust inspection process. As a result of the more comprehensive inspection process, beginning in FY 2022 ratings show a decrease in OCI ratings, and it was necessary to revise the County's condition goals to reflect changes to the inspection system. However, as the County did not change its process for maintaining roads and is in compliance with the condition ratings, no additional funding is required to maintain the updated condition ratings. Pavement condition assessments are determined annually for all arterial roads and at least one-half of the local roads are inspected annually, except in FY 2022, FY 2023, and FY 2024 when all segments were inspected to create a baseline for the new inspection protocols.

Condition Rating of Maricopa County Bridge System

Actual	\$ 3,844,263	\$ 4,868,019	\$ 2,943,651	\$ 1,708,273	\$ 4,224,795

The condition of the County's bridges/structures is determined using the MCDOT bridge inspection program that follows federal mandates and regulations. The Federal Highway Administration (FHWA) National Bridge Inspections Standards scale uses a 0 to 9 scale to classify bridges as Good (7-9), Fair (5-6), or Poor (0-4). Prior to fiscal year 2021, the bridge sufficiency rating 0 to 100 numeric scale was used. It is the County's policy that 90% of bridges and minor concrete box structures have a condition rating of 5 or greater. All Federal bridges are inspected every two years (approximately one-half of the Federal bridges are inspected annually) and all Non-Federal structures are inspected very three years (approximately one-third of the Non-Federal structures are inspected annually).

### **Listing of Internal Service Funds**

---

Internal Service Funds are used to account for services and commodities provided by one department or agency to other departments or agencies of the County. These services are provided on a cost-reimbursement basis. The following is a listing of the Internal Service Funds reported within Maricopa County.

**Equipment Services** - This fund provides assistance to other Maricopa County departments to ensure quality service to the citizens of Maricopa County by furnishing and maintaining the necessary County mobile equipment in an efficient manner.

**Technology Infrastructure** - This fund provides cost effective voice, data, and radio communications to County employees.

**Sheriff Warehouse** - Sheriff Warehouse tracks inventory activity for supplies purchased by the warehouse for resale and stores consignment inventory for other departments.

**Risk Management** - This fund supports the comprehensive insurance/self-insurance program, which safeguards County assets and employees by means of a Trust Fund. Personnel skilled in loss control, claims and litigation, and workers' compensation work together to avert risk and conserve the human and financial resources of Maricopa County.

**Employee Benefits Trust** - This fund collects employee and employer contributions for payment of the employees' medical, dental, pharmacy, and short-term disability benefits.
